LED LIGHTING (Pg. 29)

The Micro Star™ series is a functional and creative lighting alternative for many indoor or outdoor railing applications.

GLASS SYSTEMS (Pg. 32)

The glass systems feature multiple glass clamp styles to fit a variety of posts and rails.

What's New at Atlantis Rail

NEW PRODUCTS

COMING SOON!

MICRO STAR™ LIGHT BAR

The Micro Star™ LED Light Bar features a flexible LED light strip of natural white LED lights set into a powdercoated aluminum channel with a clear plastic lens. It is ideal for mounting to the underside of flat handrails for surface illumination. The light bar is available in lengths of 18", 30" and 42" and with channel color options of black, bronze, metallic silver and white. Each kit comes with the lens, LED strip, channel and fasteners. Male/female screw connectors make installation quick and easy. The LED light bar is compatible with the Micro Star™ wiring harnesses and the transformers. [PAGE 30](#)

RAILEASY™ ADJUSTABLE SIDEMOUNT OVAL

The latest addition to our collection of railing fittings allows for the mounting of 2" round stainless steel top and bottom rails on narrower stair posts. It can be mounted on posts as narrow as 3". This sidemount can achieve an angle up to 45 degrees. It is made from grade 316L stainless steel and features a set screw to prevent the rails

from rotating. A protecting gasket is also available that allows for use with various post materials, including the NOVA Nautilus System. Available in 2 packs with fasteners included. [PAGE 11](#)

Rail Passivation Kit

Rail Cleaning Kit
E0100-K001

RAILEASY™ & HANDISWAGE™ FLUSH CABLE SLEEVES

The new RailEasy™ and HandiSwage™ Cable Sleeves feature a flush face for a snug fit against the post. These sleeves are designed to protect posts from chafing and incidental damage from the cables rubbing around the outside of the mid post cable holes. It can also accommodate angles

up to 90 degrees (double posted) and stairways coming off a straight run. It can be used with wood or composite posts. The flush cable sleeve is available for 5/32" or 1/8" cable and in packs of 10. [PAGE 9 & 23](#)

RAIL PASSIVATION & RAIL CLEANING KITS

We have added 2 new maintenance kits to our rail care product line. The Passivation Kit includes a 6 ounce spray bottle of CitriSurf® 77 Plus passivation fluid, nitrile gloves and microfiber polishing cloth. The Rail Cleaning Kit includes a 4 ounce bottle of car wash soap and microfiber polishing cloth. Each kit includes instructions for optimal results. [PAGE 35](#)

HOW TO ENTER: Email your contact information (name/company name, address, phone number, email address) along with your photo entry to: carey@atlantisrail.com.

Atlantis Rail reserves the right to pick the winner at our discretion. Photo contest is available to homeowners and contractors only. Atlantis Rail Authorized Dealers are not eligible for prizes. Under no circumstance will Atlantis Rail sell or distribute your contact information. Digitally altered photos will be disqualified. Project must be code compliant. Submitted photos must depict Atlantis Rail products only. Two contests will be run during each calendar year. Entries are valid only for the period in which they are submitted. Submission of photos grants Atlantis Rail Systems the right to use submitted photos in any way it deems fit.

RAILEASY™

A Revolutionary Approach to the Conventional

Atlantis Rails' RailEasy™ Systems offer a revolutionary approach to conventional railing systems. This innovative collection of low maintenance railings offers unobstructed views and is capable of fitting any indoor or outdoor design. Enjoy the streamlined look of our unique RailEasy™ models with infill options of cable railing and glass panels. We invite you to discover the beauty and durability of stainless steel railing systems.

Visit the **Atlantis Rail website** for complete installation instructions, as well as, a comprehensive gallery of RailEasy™ application photos.

RailEasy™ Nautilus (Optional Bottom Rail)

COST: \$ \$ \$ \$

PRODUCT INFORMATION

Straight Sections

Atlantis Rail offers standard rail heights of 36" or 42" for straight sections.

Stair Sections

Rail height for stair sections are available in 36" only.

Note: Railing heights are offered in these dimensions due to nationwide building codes. However, Atlantis Rail Systems can supply custom heights/lengths upon request.

Between Posts Length

Atlantis Rail Systems recommends staying within 4' section lengths to maintain structural integrity. If section lengths exceed 4', Atlantis Rail offers a Mid Post Kit to minimize cable deflection (see pg. 12).

Cable Spacing

Atlantis Rail Systems recommends spacing cables 3" on-center to comply with nationwide building codes.

Optional Components

Vinyl Post Components - White vinyl sleeves, fitting over a 4"x4" post, are available in lengths of 48". Cut post sleeves to appropriate application height. Colonial style white vinyl post cap and base are also available as railing add-ons (see pg. 12).

Micro Star™ Lighting - Micro Star™ LED Lights can be integrated into the top rail for subtle illumination. Also, the Micro Star™ LED Post Cap fits over standard 4"x4" vinyl sleeves and provides sufficient lighting for stairs and walkways (see pg. 30).

FEATURES & BENEFITS

The RailEasy™ Nautilus System combines the modern look of stainless steel cable and tensioners with the low maintenance quality of highly polished or brushed tubing and optional vinyl post components.

Marine Grade Stainless Steel

The RailEasy™ Nautilus is made from the extremely corrosion resistant type 316L stainless steel to add years of long term value and enjoyment.

Ease of Installation

Cable assemblies are connected in the field utilizing patented RailEasy™ Tensioners, which are installed using simple hand tools.

Streamlined

Horizontal cable infill provides unobstructed views, while allowing ventilation.

Versatility

The RailEasy™ Nautilus System is offered in a highly polished or brushed finish to blend with every environment.

PRODUCT INFORMATION

Straight Sections

Atlantis Rail offers standard railing heights of 36" or 42" for straight sections.

Stair Sections

Rail height for stair sections are available in 36" only.

Note: Railing heights are offered in these dimensions due to nationwide building codes. However, Atlantis Rail Systems can supply custom heights/lengths upon request.

Between Posts Length

Atlantis Rail Systems recommends staying within 4' section lengths to maintain structural integrity. If section lengths exceed 4', Atlantis Rail offers a Cable Stabilizer Kit to minimize cable deflection (see pgs. 12-13).

Cable Spacing

Atlantis Rail Systems recommends spacing cables 3" on-center to comply with nationwide building codes.

Optional Components

Vinyl Post Components - White vinyl sleeves, fitting over a 4"x 4" post, are available in lengths of 48". Cut post sleeves to appropriate application height. Colonial style white vinyl post cap and base are also available as railing add-ons (see pg. 12).

Micro Star™ Lighting - The Micro Star™ LED Post Cap fits over standard 4"x 4" vinyl sleeves and provides sufficient lighting for stairs and walkways (see pg. 30).

FEATURES & BENEFITS

The RailEasy™ Cable Railing System combines the natural beauty of wood with the streamlined look of patented RailEasy™ Tensioners and cable.

Marine Grade Stainless Steel

RailEasy™ Tensioners and cable are made from the extremely corrosion resistant type 316L stainless steel and factory electro-polished to add years of long term value and enjoyment.

Ease of Installation

Cable assemblies are connected in the field utilizing patented RailEasy™ Tensioners, which are installed using simple hand tools.

Streamlined

Horizontal cable infill provides unobstructed views, while allowing ventilation.

Cost Efficient

The RailEasy™ Cable Railing is an affordable approach to having a contemporary look.

Featured Hardware

RAILEASY™ FEATURES & BENEFITS

- Easy surface mount system for predictable install
- 316L stainless steel & factory electro-polished
- Patented technology with multiple uses
- 45 degree swivel action self adjusts for stairs & angles
- Cut in field = easy install
- A condensed low profile for a clean look
- Use with all wood, composite & vinyl
- Standard insulators for aluminum post
- Redundant fastening ensures less post stress & no pullout

ALL CABLE ASSEMBLIES REQUIRE A TENSIONING DEVICE AT ONE END

RailEasy™ Tensioner Components

- | | | | |
|-------------------|------------------|-----------|------------------|
| 1. Patented Base | 3. Lock Nut | 5. Spacer | 7. Receiver Cone |
| 2. Tensioner Body | 4. Threaded Stud | 6. Wedge | |

Curved base also available.

Patented Base Detail

Each base is slotted to achieve angles up to 45 degrees on stair and angled rails.

Step 1

Fully seat wire rope.

Step 2

Tighten cone onto receiver.

Step 3

Rotate body to tension.

Proper Tensioning Sequence

Follow the recommended tensioning sequence to the left to ensure proper installation and to achieve optimal results.

Do not use two RailEasy™ Swivel Ends on any given cable run. They simply hold the cable and have no tensioning capabilities.

RailEasy™ Swivel Ends

RAILEASY™ LAG STUD

The RailEasy™ Lag Stud is designed for use in short runs and must always be used with a RailEasy™ Tensioner at the opposite end of the cable run for tensioning capabilities. These fittings are made from marine grade stainless steel and are available in 2 packs. The compression fitting holds the cable using simple hand tools. Holes must be pre-drilled before installing RailEasy™ Lag Studs.

RAILEASY™ STUD ASSEMBLY

The RailEasy™ Stud Assembly is used for cable railing applications where a “through-post” look is desired. It is made from grade 316L stainless steel and has a compression fitting for quick and easy installation. The assembly is used on straight and angled runs (Stair Spacers are available for angles upon request) by drilling through the post and fixing it to the back side. Tighten the hex nut to tension and cut off the excess thread to fit the acorn nut. Stainless steel and HandiSwage™ Cover Nut Sets are available (pg. 23).

Tighten nut to tension

Cut thread leaving 1/4” and install acorn nut

RAILEASY™ CABLE SLEEVES

The RailEasy™ Cable Sleeve is designed to protect wood posts from chafing and incidental damage from the cables rubbing around the outside of your mid post cable holes. It can also be used to accommodate angles up to 90 degrees and stairways coming off a straight run (see cable sleeve illustration). The cable sleeves are available with a countersunk or flush face. To install, drill a 1/4” hole and tap in the cable sleeve for a snug fit.

RAILEASY™ FLUSH FITTING

The RailEasy™ Flush Fitting is perfect for architectural cable railing applications where “through post” hardware is desired. These fittings feature a mechanical swage design, which allows attachment to cable with the use of simple hand tools. The RailEasy™ Flush Fitting is a fixed termination point and must be used in conjunction with a RailEasy™ tensioning device at the opposite end of each cable run. The supplied stainless steel deluxe cap provides a clean, finished look.

* = Weight per 100' in pounds, without reel.

RAILEASY™ CABLE CUTTER

ITEM	WT
	(lb)
C0989-00HD	0.75
NOTE: Hardened heat treated blades cut 5/32" cable for railing systems cleanly and quickly for an easy installation.	

HEAVY DUTY CABLE CUTTER

ITEM	SIZE	CUTS TO	WT
	(length)		(lb)
E0111-WR06	14"	3/16"	2.10
E0111-WR10	24"	1/4"	5.25
NOTE: Blades cut cable for railing systems cleanly and quickly for an easy installation. Longer handles provide more leverage for cutting cable.			

RAILEASY™ INSTALLATION TOOLS

ITEM	WT
	(lb)
C0988-0000	0.37
NOTE: Kit includes: 5/16", 3/8" & 7/16" open wrenches, 7/32" & 1/8" drill bits and (2) square head driver bits. Installation tools are used on railing systems where RailEasy™ Tensioners are utilized.	
C0988-4000-2 - CABLE LACING NEEDLE (2 PACK)	
Use with 1/8" and 5/32" cable. Lacing needle helps guide cable through post holes without snagging to make for a quick and easy cable railing installation.	

RAILEASY™ DRILLING TEMPLATE

ITEM	A	B	C	WT
				(lb)
C0988-1000	3.00"	3.50"	24.00"	0.19
NOTE: Drilling template allows for easy installation of RailEasy™ cable railing systems. Cable runs are spaced 3" on-center for either a 36" or 42" height railing system. Hole pattern designed specifically for mounting tensioners on end/ corner posts and for drilling "through-holes" in mid posts.				

RAIL WOOD SCREW

316L STAINLESS STEEL

S0917-0638-8	#10	0.19"	1.50"	Square	8	0.07
S0914-0638-8	#10	0.19"	1.50"	Phillips	8	0.07
BULK - 1 LB						
S0914-0538-1LB	#8	0.16"	1.50"	Phillips	1 lb (160 pcs)	1.00
S0914-0638-1LB	#10	0.19"	1.50"	Phillips	1 lb (120 pcs)	1.00
NOTE: Stainless steel screw with coarse thread is used for fastening into wood. The #8 screw is used for mounting the flat base RailEasy™ Tensioners and Swivel Ends. The #10 screw is used for mounting RailEasy™ Straight and Adjustable Sidemounts.						

STAINLESS DRIVER BITS

ITEM	SIZE	LENGTH	QTY	WT
(lb)				
PHILLIPS - 410 STAINLESS STEEL				
E0101-PH02-C-2	#2	1" (25mm)	2	0.04
E0101-PHL2-C-2	#2	2" (50mm)	2	0.06
E0101-PH03-C-2	#3	1" (25mm)	2	0.04
E0101-PHL3-C-2	#3	2" (50mm)	2	0.07
SQUARE - 410 STAINLESS STEEL				
E0101-SL02-C-2	#2	2" (50mm)	2	0.06
NOTE: These driver bits are available in #2 or #3 sizes and 1" or 2" lengths. They are offered in a quantity of 2, however, bulk orders are available upon request. Using stainless driver bits prevents contamination of stainless screw heads. Using typical steel bits can cause stainless fasteners to stain if stripping occurs during installation.				

FASTENER LUBRICANT

ITEM	SIZE	WT
(lb)		
E0102-0000	2.5 oz	0.19
NOTE: This Fastener Lubricant contains beeswax. Apply a small amount of lubricant to any threaded surface to ease threading. It is very effective on wood screws to eliminate the stripping of screw heads and to speed up the installation process.		

RAILEASY™ STRAIGHT SIDEMOUNTS

316L STAINLESS STEEL

ITEM	SIZE	A	B	C	D	FAST.	WT
(lb)							
POLISHED - 2 PACK

NOTE:
Accent RailEasy™ Systems with vinyl post sleeves, designed to fit over 4"x4" wood posts. Wall thickness is approximately 1/8".

RAILEASY™ MID POST KIT

316L STAINLESS STEEL

ITEM	A	B	C	D	E	WT
						(lb)
S0973-MP36	2"	36.00"	3.00"	5.00"	0.22"	6.25
S0973-MP42	2"	42.00"	3.00"	5.00"	0.22"	6.92

NOTE:
The Mid Post is designed specifically for use where post to post measurement spans over 4'. It enables you to adapt longer spans to code compliance by stabilizing the deflection of cable between posts. The mid posts are available in 36" or 42" stanchions pre-drilled to work with our standard 3" spacing. Apply a thin bead of Loctite 326 brand adhesive to the post base and rail tee when you are comfortable that the dry-fit sections are correct. The mid post should never be used in spans over 8'. Cable grommets are included.
SEE ADDITIONAL INFORMATION ON NEXT PAGE.

Kit cannot be used to replace the use of a substantial mid post and should never be used in spans over 7'. *GROMMETS REQUIRED FOR INSTALL. SEE ADDITIONAL INFORMATION BELOW.

CABLE STABILIZER SAFETY INFORMATION & REQUIREMENTS

Atlantis Rail Cable Stabilizers are purposed for use in maintaining code compliant cable spacing between post and rail sections with spacing greater than 4 feet between posts and not exceeding 7 feet. **The Cable Stabilizer is not a structural component and is not a substitute for a post!** Post and rail structure where a cable stabilizer is used should be rated and built to be structural without a cable stabilizer per building code requirements. Do not rely on the cable stabilizer to support the rail or add stability. The only function of the cable stabilizer is to maintain cable spacing. Building the railing to an appropriate code compliant structure is the sole responsibility of the user of Atlantis Rail products.

REQUIREMENTS & MAXIMUM LENGTHS FOR USING ATLANTIS RAIL CABLE STABILIZERS

RailEasy™ Nautilus System: The cable stabilizer may be used with sections up to 7 feet (between posts) if all other RailEasy™ Nautilus specifications are properly implemented.

SunRail™ Nautilus System: The cable stabilizer may be used with sections up to 7 feet (between posts) if all other SunRail™ Nautilus specifications are properly implemented.

Other Atlantis Rail Systems: Consult the manufacturers' specifications for the length of rail that is considered structural. The cable stabilizer may be used with composite, metal, vinyl or structural wood frame systems up to the calculated code rated spacing of the system or a maximum of 7 feet, whichever is less.

Spectrum

Railing System

A Square Post System With Many Options

COST: \$ \$ \$ \$

The Spectrum System features pre-drilled square posts and fittings to surface or fascia mount the posts and mount handrails. The cable infill offers a choice between using 1/8" or 5/32" cable with HandiSwage™ Studs. You can find installation instructions at www.atlantisrail.com or by asking your Atlantis Rail Sales Representative for more information. Customers must source their own flat handrail. Choose from the colors below.

COLOR SELECTION

STANDARD

SPECIAL

Colors from top, left to right: Black, Metallic Silver, Pure White, Pebble Grey, Light Brown and Dark Brown.

**Uncoated option available upon request.*

CABLE INFILL OPTION

HandiSwage™

The Spectrum System is available using a 5/32" or 1/8" diameter cable and HandiSwage™ Studs, making it one of the simplest and most economical cable railing systems available. All the studs, cable and accessories are made from electro-polished 316L stainless steel for maximum corrosion resistance and durability. For a finished look, we offer a variety of cover nut sets including multiple styles and colors.

SPECTRUM SYSTEM

FASCIA MOUNT POST KIT COMPONENTS

- A. Spectrum Square Post
- B. Top Mounting Plate Assembly
- C. Plastic Bottom Cap

NOTE: Fascia mounting fasteners & hardware sold separately.

SURFACE MOUNT POST KIT COMPONENTS

- A. Spectrum Square Post
- B. Top Mounting Plate Assembly
- C. Base Cover

NOTE: Surface mounting fasteners & hardware sold separately.

CABLE STABILIZER KIT COMPONENTS

- A. Spectrum Cable Stabilizer
- B. Wood Screws

NOTE: Use with surface mount Spectrum posts only.

Spectrum Post Kits Cable Spacing & Heights

Part Number	Post Description	Cable Spacing	Actual Post Height	Rendered Rail Height	Height From Surface
S0904-XX36*	36" Fascia Mount Post Kit	2.625"	42"	36"	34.375" +/-
S0904-XX38-ST*	38" Fascia Mount Stair Post Kit	2.629" – 2.756" **	45.75"	34" – 36"	39.625" +/-
S0904-XX42*	42" Fascia Mount Post Kit	2.688"	48"	42"	40.375" +/-
S0905-XX36*	36" Surface Mount Post Kit	2.625"	34.50"	36"	34.50"
S0905-XX38-ST*	38" Surface Mount Stair Post Kit	2.629" – 2.756" **	38.125"	34" – 36"	38.125"
S0905-XX42*	42" Surface Mount Post Kit	2.688"	40.50"	42"	40.50"
S0905-XX45*	36" Surface Mount Cable Stabilizer Kit	2.63"	34.50"	36"	34.50"
S0905-XX46*	42" Surface Mount Cable Stabilizer Kit	2.69"	40.50"	42"	40.50"

* "XX" in the part number is the color designation. Replace with "BK" for black, "MT" for metallic silver or "SP" for one of the special colors.

** Cable spacing on stair post kits vary due to the angle of the stairs. These variations are based on stair angles between 32° and 36° (aligned dimensions).

For more information on Spectrum post and stabilizer kits, see the Atlantis Rail Stock Post Reference Sheet on page 39.

FASCIA MOUNT

SURFACE MOUNT

ADA HANDRAIL MOUNTING BRACKET

The ADA Handrail Mounting Bracket features a clamp that fits onto a Spectrum post and allows for the attachment of rail end and mid support fittings. These supports accept a 1-1/2" stainless steel tube which enables the Spectrum System to be ADA compliant. The clamp is powder-coated to match the post color.

**S0904-XX60* (clamp)
& S0901-0401 (rail mid support)**

REINFORCING CHANNEL

This channel is used in applications where the handrail needs additional structural reinforcement. It fits over the Top Mounting Plate Assembly and the screws can be mounted through the slots running the length of the channel and into the handrail. The Reinforcing Channel is powder-coated to match the post color and available in 48" lengths and can be cut to size. The 36" surface mount post requires a spacing block (S0904-XX58*). Spacing block sold separately with fasteners.

S0904-XX54*

WIDE MOUNTING PLATE

The Wide Mounting Plate is twice the width of the standard mounting plate and is used in applications where a wider top rail is desired. The plate is powder-coated to match the post color. Additional wood screws are included.

S0904-XX53*

* "XX" in the part number is the color designation. Replace with "BK" for black, "MT" for metallic silver or "SP" for one of the special colors.

**Top Mounting Plate Assembly
(fasteners included)**

This assembly allows for the easy installation of a customer supplied flat top rail. Each plate is precision machined with matching hole patterns for easy installation to posts and handrails. A stainless plate is fastened to the post and wood screws are then drilled up into the top rail.

**Corner Mending Plate Set - S0904-XX51*
(fasteners included)**

This set is used to join Top Mounting Plate Assemblies on corner posts. The hole patterns match those of the Mounting Plate and attach using the 1/4" screws and nuts.

The mounting plates feature angled ends which allow installers to meet 90° or 135° angles at corners. Corners require double posts.

The base cover can be added once the surface mount post is secured for a finished look.

SPECTRUM GLASS SYSTEM

SURFACE MOUNT GLASS END POST KIT COMPONENTS

- A. Spectrum Square End Post
- B. Top Mounting Plate Assembly
- C. Glass Panel Connector (Flat)
- D. Base Cover

NOTE: Surface mounting fasteners & hardware sold separately.

SURFACE MOUNT GLASS MID POST KIT COMPONENTS

- A. Spectrum Square End Post
- B. Top Mounting Plate Assembly
- C. Glass Panel Connector (Flat)
- D. Base Cover

NOTE: Surface mounting fasteners & hardware sold separately.

SURFACE MOUNT GLASS CORNER POST KIT COMPONENTS

- A. Spectrum Square End Post
- B. Top Mounting Corner Plate Assembly
- C. Glass Panel Connector (Flat)
- D. Base Cover

NOTE: Surface mounting fasteners & hardware sold separately.

Spectrum Post Kits Heights

Part Number	Post Description	Actual Post Height	Rendered Rail Height	Height From Surface
S0905-XX36-GE*	36" Surface Mount End Post Kit	34.50"	36"	34.50"
S0905-XX36-GM*	36" Surface Mount Mid Post Kit	34.50"	36"	34.50"
S0905-XX36-GC*	36" Surface Mount Corner Post Kit	34.50"	36"	34.50"
S0905-XX42-GE*	42" Surface Mount End Post Kit	40.50"	42"	40.50"
S0905-XX42-GM*	42" Surface Mount Mid Post Kit	40.50"	42"	40.50"
S0905-XX42-GC*	42" Surface Mount Corner Post Kit	40.50"	42"	40.50"

* "XX" in the part number is the color designation. Replace with "BK" for black, "MT" for metallic silver or "SP" for one of the special colors.

GLASS INFILL OPTION

The Spectrum Glass System utilizes surface mounted square posts with pre-installed glass panel connectors which accept 3/8" to 1/2" glass infill. Posts are available in heights of 36" and 42" and standard colors of black or metallic silver. Special colors and uncoated posts are also available. Ask your Atlantis Rail Account Manager for details.

- Customers must source their own hardwood top rail (minimum of 2" x 4").
- Atlantis Rail does not offer glass panels as part of the Spectrum Glass System.

Cable Railing with Powder-Coated Aluminum Posts & Rails

The NOVA II System features powder-coated aluminum posts, handrails and foot rails and horizontal cable infill. The cable infill utilizes HandiSwage™ fittings with 1/8" cable. The NOVA II posts are surface mounted using the NOVA II Post Mounting Hardware Kit which is sold separately and includes 4, 5/16" x 4-1/2" hex head lag bolts and accompanying cover nuts. Customers must source their own mounting hardware when mounting on surfaces other than wood.

The NOVA II system is completely off-the-shelf and features minimal components and is offered in black, white and bronze. Each post and rail kit includes everything needed for installation. Post mounting hardware, cable and cable mounting hardware are sold separately.

The NOVA II System is not to be installed within 1 mile of salt water.

COST: \$ \$ \$ \$

NOVA NAUTILUS

The NOVA Nautilus System utilizes pre-drilled aluminum posts with a 2" stainless steel top and optional bottom rail. It features multiple color options of black, white or bronze to compliment any application. The cable is spaced at 2-3/4" and utilizes HandiSwage™ fittings.

HandiSwage™ CABLE INFILL

The NOVA II System features 1/8" diameter cable and a line of HandiSwage™ fittings including studs and tensioners. Using the HandiSwage™ line, makes the NOVA II System one of the simplest and most economical cable railing systems available. All fittings cable and accessories are made from electro-polished, 316L stainless steel for maximum corrosion resistance and durability. For a finished look, we offer cover nut sets to match the posts.

NOVA II SYSTEM RAIL KITS

There are 2 types of NOVA II rail kits; a straight and stair kit. They are offered in 6' lengths utilizing a top and bottom rail and a cable stabilizer. Each kit includes all the necessary fasteners and components to mount the rails to the NOVA II posts.

STRAIGHT RAIL KIT

NOVA II 6' Straight Rail Section A0906-0201-XX*

Includes the following components:

- 1 Top Rail
- 1 Bottom Rail
- 1 Cable Stabilizer, Drilled
- 2 Top Rail Brackets
- 4 Screw Covers
- 2 Bracket Keys
- 4 Button Head Screws
- 2 Bottom Rail Brackets
- 1 Support Block
- 13 Self-Drilling Screws
- 1 Support Block Base Lot
- 3 Connectors
- 1 Square Driver Bit

STAIR RAIL KIT

NOVA II 6' Stair Rail Section A0906-S021-XX*

Includes the following components:

- 1 Top Stair Rail
- 1 Bottom Stair Rail
- 1 Cable Stabilizer, Undrilled
- 1 Upper Stair Rail Bracket
- 1 Lower Stair Rail Bracket
- 2 Top Stair Rail Bracket Mounts
- 2 Bottom Stair Rail Brackets
- 2 Bottom Stair Rail Bracket Mounts
- 1 Support Block
- 13 Self-Drilling Screws
- 8 Set Screws
- 1 Support Block Base Kit
- 3 Angled Connectors
- 1 Square Driver Bit

NOVA II SYSTEM POST KITS

The NOVA II System has 6 post kits including a 36" and 42" universal and a 36" and 42" corner post for level sections and a 36" and 42" post for stair sections. The post kits for level sections are pre-drilled, while the stair post kits are undrilled due to stair variables. Each kit includes everything needed for installation, excluding post mounting hardware. For mounting to wood, use the NOVA Post Mounting Hardware Kit (A0908-HD10).

LEVEL POST KITS

Posts are 3" x 3"

Included in the Universal and Corner Post Kits:

- 1 Post, Drilled
- 1 Post Skirt
- 1 Post Cap
- 1 Post Pad

Additional items included in the Corner Post Kits:

- 10 or 12 NOVA HandiSwage™ Studs
- 10 or 12 Plastic Washers
- 10 or 12 Cable Grommets

STAIR POST KITS

Posts are 3" x 3"

Included in the 36" & 42" Undrilled Stair Post Kits:

- 1 Post, Undrilled
- 1 Post Skirt
- 1 Post Cap
- 1 Post Pad

* "XX" in the part number is the color designation. Replace with "BK" for black, "WH" for white or "BZ" for bronze.

The NOVA Cover Nut Set includes a plastic washer, stainless steel nut and plastic cover nut. It is used with the HandiSwage™ Stud for tensioning capabilities. Available in black, white and bronze colors in packs of ten or twelve.

HANDISWAGETM

CABLE RAILING

A Unique Look on a Budget

COST: \$ \$ \$ \$

Atlantis Rail's HandiSwageTM System is an easy to use cable railing product utilizing fittings that are an adaptation of traditional swage fittings. They can be attached to cable using Atlantis Rail's hand swage tool. This system combines the aesthetic appeal, quality and durability of the RailEasyTM cable railing components with the convenience and economy of 1/8" and 5/32" cable. All HandiSwageTM components are made from grade 316L stainless steel for durability and corrosion resistance.

ATLANTIS[®]
RAIL SYSTEMS

E0113-H600

HAND SWAGER

The HandiSwage™ Hand Swager allows for the swaging by hand of 1/8", 5/32" and 3/16" cable.

This hand swager crimps the HandiSwage™ Studs onto the cable quickly and easily. It features rubber handles for optimal grip and an adjustment screw to ensure an optimal swage. An After Swage Gauge is included with the hand swager and is used to confirm that the swage has been properly made. Each HandiSwage™ Stud requires 3 crimps with a 180 degree rotation between each to prevent the swage stud from warping.

Rotate hand swage stud 180° between each swage.

HANDISWAGE™ FEATURES & BENEFITS

- 316L stainless steel & factory electro-polished
- Cut in field = easy installation
- Hardware mostly hidden within the post for a streamline look
- Multiple cover nut sets to fit every design
- Cost efficient cable railing option
- Through-post or surface mount hardware options available
- Easy attachment to cable using the hand swager

GROMMETS & COVER NUT SETS

There are a few options to help give the post a finished look and prevent deflection of the cable.

CABLE GROMMETS

These grommets are used with 1/8" or 5/32" cable. They snap onto the cable and slide into the hole or onto the HandiSwage™ Stud for a snug fit. A grommets main function is to prevent movement and deflection of cable and reduce dirt and moisture from getting inside the post and onto the cable or stud. They are available in packs of 25.

COVER NUT SETS

There are a variety of cover nut sets to choose from to give a HandiSwage™ system a finished look. All cover nut sets include a locking nut, washer and decorative cap. There are 2 stainless steel versions and 5 plastic versions with color choices of black, metallic silver, white, light brown and dark brown.

Cover nut sets include locking nuts, washers and cover nuts.

SUNRAIL™ SYSTEM

Complete Stainless Steel Modular Railing System

COST: \$\$\$\$

For a completely stainless steel railing system, Atlantis Rail offers the SunRail™ systems. These modular systems allow for easy installation while achieving a custom look. The SunRail™ models are available with infill options of cable railing, glass panels and ADA compliant handicap railing systems. The streamlined look of these systems provides the enjoyment of unobstructed views without compromising the structural integrity.

We invite you to visit our website to learn more about the **SunRail™ Systems**. Installation instructions and a complete photo gallery are available online.

RESIDENTIAL

Enjoy years of long lasting value with a low maintenance stainless railing system.

Achieve a custom look at a fraction of a fabricators' cost. These modular systems are perfect for any indoor or outdoor design and are pre-engineered for a quick and easy installation. The SunRail systems' modular components are made from marine grade 316L stainless steel for maximum corrosion resistance and durability.

The SunRail™ systems blend nicely with any style residence and can be used for interior or exterior applications.

The SunRail™ Systems are modular stainless steel railing systems that are ideal for any indoor or outdoor residential design. Each railing is pre-engineered for quick and easy installation with infill options of cable railing and glass panels. The versatility of a highly polished or brushed finish allows the SunRail™ models to blend nicely with every environment.

Visit the **Railing Gallery** to find inspiration and see what other homeowners have designed using the SunRail™ systems.

RailEasy™ Nautilus

SunRail™ Nautilus

COMMERCIAL

Stainless steel modular components offer versatility to fit many commercial needs.

Atlantis Rail offers the versatility of completely stainless steel systems or railings that integrate wood, composite or vinyl. Horizontal cable railing and glass panels are available as railing infill, as well as, your choice of a brushed or highly polished stainless steel finish. These railings are made from grade 316L stainless and electro-polished to offer maximum corrosion resistance and durability, making them ideal for outdoor and oceanfront applications. Let Atlantis Rail satisfy your commercial needs with a cost effective and unique railing system.

SunRail™ Nautilus

SunRail™ Nautilus

SunRail™ Glass

We invite you to visit our website to learn more about our **Commercial Railing** selection. Atlantis Rail Engineers will work with you to create a stainless steel railing system second to none!

Gates

CUSTOM

Custom w/ Balusters

All Atlantis Rail systems feature modular components to allow for customization in any size indoor or outdoor project.

Atlantis' team of Engineers work with you to design a railing system that fits you or your customers' needs. With the help of our knowledgeable staff and our state-of-the-art machinery, we are able to easily customize both the SunRail™ and RailEasy™ systems. For subtle illumination, add Micro Star™ LED lighting to any railing project. These super bright white LED lights are ideal for accenting indoor or outdoor railing applications. The small size and easy installation allows for endless design possibilities.

Custom Mounting

ADA Compliant

ADA Compliant Systems SunRail™ Custom

The versatility of our SunRail™ system allows us to provide ADA compliant railing systems “made to order”. The patented, modular components allow for the quick and accurate production of railings for any size project. Cable railing and glass panels are offered as infill options, as well as, your choice of a brushed or highly polished stainless steel finish. Let Atlantis Rail provide you with a cost effective and unique alternative for those with disabilities.

SUNRAIL™ LATITUDE

New Look... Same Unobstructed View

COST: \$\$\$\$

The SunRail™ Latitude features prefabricated 316L stainless steel posts and horizontal cable infill, utilizing RailEasy™ round base tensioners and top rail mounting plates. These top rail mounting plates offer easy installation with virtually no hardware obstruction and allows customers to select their desired top rail.

CABLE RAILING INFILL

The SunRail™ Latitude System is comprised of mechanical swage tensioners riveted to 2" outer diameter stainless steel posts to allow for cable railing infill. These RailEasy™ Tensioners feature a compression fitting which enables installers to cut cable on-site, removing the hassle of pre-measuring and the cost of miscalculating dimensions. The cable used is a 5/32" diameter 1x19 strand cable. All fittings, cable and accessories are made from 316L stainless steel for maximum corrosion resistance. Standard cable spacing is less than 3" on-center.

SUNRAIL™ LATITUDE POST KITS

End Post Kits:

- 36" or 42" tube
- Top Plate Mounting Assembly (fasteners included)
- Mounting base (fasteners not included)
- 11 or 13 RailEasy™ Tensioners Round (depending on height)

Mid Post Kits:

- 36" or 42" tube
- Top Plate Mounting Assembly (fasteners included)
- Mounting base (fasteners not included)
- 11 or 13 pre-drilled holes for running cable

Corner Post Kits (for 90° corners):

- 36" or 42" tube
- Top Plate Mounting Assembly (fasteners included)
- Mounting base (fasteners not included)
- 22 or 26 RailEasy™ Tensioners Round (depending on height)

micro star™ Lighting

The Micro Star™ series is both a functional and a creative lighting alternative. They can be used on railings, decks, fences, steps and many more interior or exterior lighting applications.

Accent Features

The patented Micro Star™ series is a complete line of lighting options for railings, fencing, steps and many other indoor or outdoor applications. The Micro Star™ LED Lights are available in 12v and each draws only .02 amps. The Micro Star™ LED Post Cap provides sufficient levels of lighting and fits over standard 4" x 4" vinyl sleeves. They are pre-wired for simple connection and quick installation.

COMING SOON!

New Micro Star™
LED Light Bar

The Micro Star™ LED Light Bar features a flexible LED light strip of natural white LED lights set into a powdercoated aluminum channel with a clear plastic lens. It is ideal for mounting to the underside of handrails for surface illumination.

Micro Star™
in SunRail™ Nautilus

FEATURES & BENEFITS

Code Compliant

Due to new code requirements for stairway illumination, Atlantis Rail offers Post Caps to help customers with code compliancy.

Small in Size

Patented Micro Star™ LED Lights measure only 1/4" in diameter and 7/8" in length and can fit almost anywhere with ease, even into curved surfaces such as tubular railings.

Ease of Installation

Micro Star™ LED Lights and Post Caps arrive pre-wired for simple connection and quick installation.

MICRO STAR™ LED LIGHT

HOUSING: 316 STAINLESS

Connection End

ITEM	A	B	C	D	E	COLOR	WT

RailEasy™ Glass

SunRail™ Glass

GLASS SYSTEMS

COST: \$ \$ \$ \$

PRODUCT INFORMATION

Straight Sections

Atlantis Rail offers standard rail heights of 36" or 42" for straight sections.

Note: Atlantis Rail Systems does not supply glass panels for these systems.

Stair Sections

Rail height for stair sections are available in 36" only.

Note: Railing heights are offered in these dimensions due to nationwide building codes. However, Atlantis Rail can accommodate custom heights/lengths upon request.

Between Posts Length

Atlantis Rail Systems recommends staying within 5' section lengths to maintain structural integrity.

Glass System Options

Atlantis Rail offers a variety of glass panel connector styles to fit tubular and flat posts and rails. The contoured glass panel connectors fit a 2" stainless steel tube which can be used with the RailEasy™ or SunRail™ Glass Systems. The flat glass panel connector is ideal for integrating glass into a wood post and rail system or into a Spectrum System. The Glass Panel Base can be used on many applications including the Spectrum System with no top rail for a completely unobstructed view.

A plastic insert (supplied) fits inside and wraps around glass. Set screws (supplied) hold the glass in place. Additional plastic wedges are included to give the glass a snug fit.

RAIL CARE GUIDE

Keep Your Railing Looking Like the Day it was Installed!

Stainless steel products cannot be regarded as completely maintenance free. Low maintenance depends largely on the care given during the first year.

After the initial installation of your railing: Clean thoroughly with automobile soap (mild car wash soap). Field passivate any place where tools have come in contact with your railing or components. Clean your railing again after passivation with warm water and automobile soap. Rinse thoroughly with fresh water. Follow with a protective polish, such as Prism metal polish.

General maintenance: Clean the railing when it's dirty in order to restore its original appearance. Polish as needed to maintain the desired luster.

For the Rail Care Guide download, please visit our website: <http://www.atlantisrail.com/downloads>

MAINTAINING YOUR STAINLESS STEEL RAILING

Extra Care in Working (Construction) Environments

Working environments create aggressive conditions. Proper cleaning must be done immediately after installation of an Atlantis Rail product and should be repeated often as needed. If there is long exposure to working environments. Cleaning must be done immediately after exposure. Leaving a new installation without cleaning and then exposing it to a working environment will cause a high potential for corrosion. Be very mindful of the kind of work taking place around your stainless steel and protect the railings if possible. Chemicals to clean paint or epoxy over-spray are particularly damaging to stainless steel.

Work Site Cleaning Solutions, Beware!

Most simple household cleaning solutions, when used in accordance with their makers' instructions, are safe for incidental contact with stainless steel, but if used incorrectly, they can cause discoloration and corrosion on the surface of stainless steel by affecting the protective elements of the metal. We recommend car wash soap. Strong acid and chemical solutions (e.g. hydrochloric acid, muriatic acid, methyl ethyl ketone or "spirits of salts") are sometimes used to clean masonry, tiling and heavy paint clean up of buildings, but they should never be permitted to come into contact with your stainless steel. **It is safe to assume that anything you would not clean the aesthetic surfaces of a fine automobile with should not come in contact with your stainless steel railings.** If contact of such a corrosive solution should happen, the solution must be removed immediately by copious water flushing and cleaning with a mild automobile (car wash) detergent. Anything containing a harsh acid or chemical coming in contact with stainless steel will potentially cause reactions that can lead to corrosion.

Use of Iron Tools or Cutting in Proximity of Stainless Steel

The use of bare iron tools such as crescent wrenches, pliers, channel locks and Allen wrenches should be avoided. Use tools with chrome plating. If such tools are used, the iron deposits, though not visible, will rust and potentially cause the stainless steel in contact with it to rust. Cutting anything with a power saw in the proximity of your stainless steel railing will contaminate the area causing iron particles to be airborne, rusting wherever they land. Grinding will also have the same effect. Any contaminated surfaces should be treated with copious water flushing and cleaning with a mild automobile (car wash) detergent. We also recommend the use of a passivation fluid such as Citrisurf to guarantee the surfaces are clean and sealed.

Use of Fasteners with Stainless Steel

All fasteners should be 316L stainless steel if possible. Mixing carbon steel and plated fasteners will cause corrosion where they meet the stainless steel. Nearby steel items, either attached to or over hanging, can cause corrosion to spread. Mixing metals can cause "electrolysis" to occur, creating corrosion.

Salt Water Environments

In salt water environments we recommend electro-polishing all components and using specialized stainless steel tubing. This additional process is not a guarantee against discoloration, but it does provide the greatest protection for your stainless steel system. The treatment is relatively low cost for most systems. ****If you are on the ocean front please entertain the electro-polish process.***

RAIL CARE KIT & RAIL CLEANING KIT

ITEM	DESCRIPTION	WT
		(lb)
RAIL CARE KIT E0100-K000	Designed for cleaning / maintaining stainless steel railing systems	1.48
Kit includes: (1) CitriSurf® 77 Plus 6-ounce spray, (1) 4-Ounce Bottle of Car Wash Soap, (1) 6-Ounce Cup of Metal Polish (1) Pair of Nitrile Gloves, (1) Microfiber Polishing Cloth and (1) Rail Care Guide.

PRISM POLISH - LIQUID E0100-P004	8 fl. oz.	0.66
NOTE: <i>Prism Polish is formulated to clean, polish and protect all metals in one application. It contains no harsh acids, caustics or abrasives. Prism Polish is non-toxic and non-flammable. Apply a small amount of Prism Polish using a soft cloth. There is no need to let Prism Polish dry. Simply buff off with a clean soft cloth until all residue is gone.</i>		

MICROFIBER POLISHING CLOTH

ITEM	SIZE	WT
		(lb)
E0100-F007	16" x 16"	0.15
NOTE: <i>Microfiber Polishing Cloth effortlessly cleans and polishes all metals, fiberglass and plastics. Washable and reusable up to 100 times. Microfiber technology polishes and buffs faster and easier than cloth. Removes fingerprints and oils in one wipe. Use wet or dry. Streak-free performance. Works electrostatically.</i>		

RailEasy™ Retail Display

Exclusive Offer

The RailEasy™ Retail Display is offered exclusively to Atlantis Rail Authorized Dealers. The initial display order consists of the products pictured to the right which construct the RailEasy™ Cable Railing System. Also, the display comes complete with the racking, signage, tear-off RailEasy™ Project Planners and quick reference guides.

ATLANTIS RAIL AUTHORIZED DEALER BENEFITS

- Exclusive referral program — only authorized dealers receive referral leads
- Online presence through the Dealer Locator page on the Atlantis Rail website
- Co-marketing support for your local events and advertising
- Free freight on most orders
- Selling the finest stainless steel cable railing systems on the market today
- Increased store traffic and valuable cross-selling opportunities
- Several available choices in stainless steel railings at stock program prices
- Free design services
- Extensive marketing within the industry
- Reasonable stocking requirements with access to our entire product line

HandiSwage™ Retail Packaging

Offer your customers an alternative cable railing system with the HandiSwage™ retail program. The packaging has the eye-catching HandiSwage™ logo and brilliant colors. This program includes hand swage studs, tensioners, cable, nut sets, cable sleeves and hand swage tools. Many of the products in this line are available in packs of 2 or more. Contact your Atlantis Rail Sales Representative for more details.

Regardless of what cable railing you use, Atlantis Rail Systems wants to make sure you install your cable railing to a safe and code compliant specification.

To start planning your project always make sure you check with your local code compliance official before starting your cable railing project. They may have special requirements.

The first three basics of cable railing involve spacing; cable spacing, post spacing and total area covered (length of runs).

We define these specifications as the rule of

3 = Cable spacing must never exceed 3 inches.

4 = Distance between post can never exceed 4 feet, if it is necessary to have post spacing over 4 ft., always add cable stabilizers.

5 = Cable runs should not exceed 50 feet in total length.

OTHER MUST HAVE / MUST DO CRITERIA AND SPECIFICATIONS FOR CABLE RAILING

- You must always use a top rail. A typical cable railing system will have 10-12 rows of cable with 200 lbs. of pull each. An inadequate top rail will allow the post to pull in and potentially cause several problems.
- You must make sure your post mounting surface is properly blocked per building code.
- You must follow the manufacturer's instructions including cleaning and maintenance. Stainless steel is "low" maintenance, not "no" maintenance (See page 34).

SELECTING MATERIAL

- All cable components should be a minimum grade of 316L Stainless Steel.
- Decide if you want to make your cable railing surface mounted or through post mounted.
- Only 1x19 configuration cable should be used. It is the most rigid and smooth cable available. Other configurations will allow for greater deflection.
- Posts for ocean front applications should be a smooth high polish material made of 316L stainless steel or other highly corrosion resistant material. Brushed or satin finished products are not as corrosion resistant. Non ocean front applications may use other finishes or materials.
- Alternatively you may use powder coated stainless steel and sometimes aluminum railing material depending on the environment. Consult the manufacturer for specifics as some material may not be warranted for ocean front applications.
- Choose materials from a reputable manufacturer that can provide independent test reports confirming their product meets and exceeds code and safety requirements.
- Review the manufacturer's instructions, video's and material specifications before making your decision.
- Avoid mixing product from different manufacturers, it may affect the warranty.

1x19 Cable Configuration

HOW TO MEASURE FOR AN ATLANTIS RAIL SYSTEM

We encourage our customers to order from local authorized dealers to ensure personal service, local representation and project assistance.

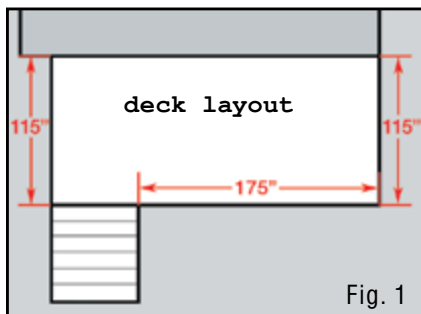

Fig. 1

Fig. 2

STEP 1 - Select a railing model

Based on the available selections, choose a model.

STEP 2 - Sketch your project

Sketch your project to scale. Start from the left and measure from each end to the next end or corner (Figure 1). Please note the type of surface the railing system will be mounted on. If using posts other than those supplied by Atlantis Rail, take care to indicate the location on the sketch (Figure 2).

Post and Rail Mounting Surfaces Note: Atlantis Rail Systems provides a variety of mounting options for posts and rails used in our systems. Products of this nature require that mounting surfaces are constructed to be considered structural per building code definition for the surface material used. Structural integrity and building code compliance of mounting surfaces are the responsibility of the end user and / or installer. The use of any of our mounting methods are at the option and decision of the end user and /or installer and should be selected to match the structural material used to create the mounting surface.

STEP 3 - Determine the required rail height of each section

Railing sections are offered in standard heights of 36" and 42". Custom heights are available upon request. Refer to your local building codes and note the required rail height for your project.

STEP 4 - Determine supplies for your project

We encourage you to contact your local authorized dealer. To find a dealer in your area, refer to the "Find a Dealer" page on the Atlantis Rail website or call (800) 541-6829 for assistance. If a dealer is not located in your area, please fax or email your project sketch with written dimensions to Atlantis Rail Systems: (508) 732-9798 or info@atlantisrail.com.

Use our **Dealer Locator** to find a Dealer near you.

Company Background

Atlantis Rail is committed to raising the bar of excellence one customer at a time. We invite you to experience the designs that set us apart from the rest.

A History of Excellence

Atlantis Rail Systems' heritage is very unique. The idea of using stainless steel products, such as cable and tensioners, for architectural purposes was inspired by the very lifelines and hardware that can be found on boats in every harbor across the globe. The concept of Atlantis Rail Systems was developed by Suncor Stainless, Inc., a leading manufacturer of stainless steel hardware in the industrial and marine industries. With the dedicated help of the Atlantis Rail Team, we are proud to provide custom fit railing systems worldwide.

The products illustrated within these pages provide a cutting edge approach to conventional railing systems. Through the use of patented technology and the durability of marine grade, type 316L stainless steel, we have the ability to provide customers with a superior product in both style and quality to fit any indoor or outdoor, commercial or residential design.

Our CNC band saw cuts tubing quickly and accurately, which allows for easy customization. Stock tubing can be made precisely with the pre-programmed measuring technology of the saw.

Atlantis Rail opened a new warehouse in Las Vegas, NV for faster service to the west coast.

Precision CNC milling machine.

**ALL ENTRIES
RECEIVE FREE
RAIL CLEANING &
PASSIVATION KITS!***

* Limit one free set of
rail cleaning and passivation
kits per person per project.

HOW TO ENTER: Email your contact information (name/company name, address, phone number, email address) along with your photo entry to: carey@atlantisrail.com.

Atlantis Rail reserves the right to pick the winner at our discretion. Photo contest is available to homeowners and contractors only. Atlantis Rail Authorized Dealers are not eligible for prizes. Under no circumstance will Atlantis Rail sell or distribute your contact information. Digitally altered photos will be disqualified. Project must be code compliant. Submitted photos must depict Atlantis Rail products only. Two contests will be run during each calendar year. Entries are valid only for the period in which they are submitted. Submission of photos grants Atlantis Rail Systems the right to use submitted photos in any way it deems fit.

Stainless steel products cannot be regarded as completely maintenance free. Low maintenance depends largely on the care given during the first year.

**Thank you for making Atlantis Rail Systems your
number one source for quality stainless steel railing products!**
