The ADI™ Difference:

Providing great "good old-fashioned service"!

ADI™ offers innovative, brand-leading products at a fair cost that ship to you quickly and accurately. We have the breadth and depth of inventory to service your needs in a timely manner. Through our trained, caring, and knowledgeable staff, we will provide you with an exceptional customer service experience.

- ADI™ provides sales and marketing support through our industry leading catalog provided as a sales and marketing tool for you and your customer. In-store displays, coop advertising, product literature, builder show participation, in-store training, lineal cost estimating tool and direct contractor/builder marketing to drive business to you.
- ADI™ researches and sources innovative products that will generate additional profit opportunities to help grow your business and differentiate you from the competition.
- ADI™ listens to you and believes you are a valuable source of learning on how we can improve our quality, service and products.
- ADI™ strives to be your no-hassle supplier of choice, while being easy and fun to do business with. All the while continuing to earn your business through our performance.

Business Description

Founded in 2003 Absolute Distribution Inc. (ADI™) is a family owned, non-traditional two-step wholesale distributor and marketer of decking related specialty products primarily to lumber dealers (LBM) and deck specialty retailers.

We create demand for our products through a focused marketing approach pulling business from the deck builder and deck contractor through our dealer base.

We serve our target markets with a narrow product focus, an operational excellence business model and by developing strong business relationships. Our focus is on outdoor living related products that enhance the outdoor living experience for the consumer while at the same time providing profit opportunity for our dealer

Mission:

ADI™ believes our Customers & Partners have value for:

- A variety of building products of superior quality and quantity delivered in a timely manner, to re-sell, solve problems, and enhance their surroundings.
- Knowledge and information that is appropriate, accurate and timely.
- To make informed decisions on sources of supply, the selection of products and on the installation, use, maintenance and warranty of our products.
- About current business, industry, technology, product trends and best practices that facilitate operating their businesses successfully.

We provide the best match for the material needs by:

- Offering quality products, managing inventory, shipping materials from our warehouse, sourcing from other distributors and by coordinating shipments directly from the factory.
- Providing take off services for projects with quick estimates/quotes.
- Providing installation support for their customer by phone or in person.
- Continuously researching innovative new product opportunities to bring to our partners.

We provide the best match for knowledge & information needs by:

- Communicating information and sharing knowledge through personal contact, telephone contact, electronically, mail, mass media advertising, email, website and in person training.

We provide the best match for support in generating sales revenue needs by:

- Creating demand downstream of our partners by marketing to the deck builder / contractor.
- Providing marketing / merchandising support and custom tailored co-branded literature.
- Creating demand through participation in Builder/Contractor shows.
- Closing the loop on manufacturer generated leads by passing the business through our partners

Values

Communication
Continuous learning
Continuous improvement
Doing the "right" thing
Fun
Honesty
Interdependency
Innovation
Openness
Professionalism
Trustworthiness
Social responsibility
Sense of Urgency
Teamwork
Keeping Jobs in USA

Vision

We will be recognized as a leader in non-traditional two step wholesale distribution, sales and marketing of innovative products serving the outdoor living spaces category. We will provide quality products, services and programs to the independent lumber dealer, building center and deck specialty retailer. We will work downstream with the deck builder and contractor to introduce and educate them to products, concepts, create demand and then pull this business through our dealer network. We will create barriers to competition by creating a strong, loyal, well serviced, well-informed dealer network.

General Information / Terms & Conditions of Sale

Catalog

- A separate price list is available referencing this catalog.
- All items have a part number that should be utilized when ordering and are referenced in the price list.
- Most items shown in this catalog are stocked by ADI™ except those items denoted as "**NON-STOCK**" by the **RED** item number.
- NON-STOCK, Manufactured to Order and Special Order items will incur actual freight charges regardless of freight terms. Please note that these items are non returnable.
- Freight costs are calculated at time of order placement and can be provided immediately.
- Most orders are shipped via Federal Express (FedEx) or FedEx LTL.
- ADI™ will FAX or E-Mail order confirmations upon request. You may also request to have orders confirmed via FAX or E-Mail automatically from our system as a standard.

Prices

- All prices are subject to change without notice.
  If you are quoting large projects please call for current pricing.

Sales Tax

1. A valid tax exemption / resale certificate must be ON FILE with Absolute Distribution Inc. (ADI™).

Placing and Order

1. Orders may be placed toll free at 800-335-5909 from 7:30 AM to 6:00 PM CST.
2. Orders may be placed via email. Send to "Order@absolutedist.com"
3. Orders may be placed by FAX via our toll free FAX 800-203-4495.
4. Orders may be placed via web portal - please call for details.
5. Allow 1-3 days for delivery via common carrier.

Shipping

1. Orders received by 3:30 PM CST typically ship the same day.
2. All orders will be shipped via ADI™ preferred carrier.
3. Special shipping requests I.E. (next day air) will be assessed actual carrier freight charges.
4. Please reference LIST Price document for freight guidelines.

RailFX® Aluminum Rail & Cable System

General Information / Terms & Conditions of Sale

Return of Merchandise

1. Merchandise originally purchased from ADI™ may be returned for credit with prior approval (RMA).
2. Items must be current, unused, in good condition, and no older than 90 days.
3. Return items must be in original packaging and adequately protected to prevent damage during return shipping.
4. A restocking charge of 15% of material value or $15.00, whichever is greater, will be applied to returns that are due to customer request.
5. Credit will be based on prices in effect at time of invoicing. Credit is subject to deduction for restocking charge. Items returned that are not in re-sellable as new condition will not receive credit.
6. Return freight charges will be the responsibility of the shipper unless return was necessitated by ADI™ error.

Claims for Shortage and Damage

1. Please immediately inspect materials for damage and shortages and note any discrepancies on the bill of lading.
- Note: Customer is responsible for claims as a result of shortages and damages not noted on the bill of lading at the time of receipt.
2. Claims for concealed shortage must be reported to ADI™ within 24 hours of receipt.

Credit Terms

1. Standard payment terms for open accounts are Net 30 Days.
2. Past due accounts will be assessed a 1.5% per month service charge.
3. C.O.D. accounts will be assessed the carrier freight and collection charges.
4. Request to pay via credit card will incur 3.5% credit card fee.
5. Invoices can be emailed, faxed or mailed based on your preference.

Hours of Operation & Address

1. Customer Service hours are from 7:30 AM to 6:00 PM CST, Monday – Friday.

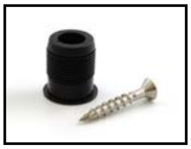
Universal Baluster Connector Pro Pack - 500 ct.

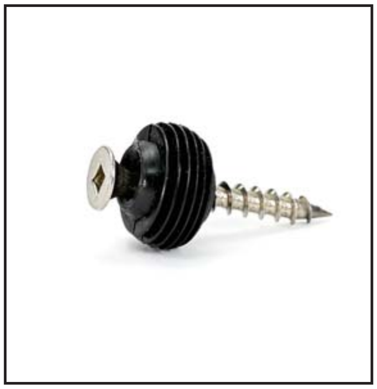
Sold in Pails.

Fits most 3/4" diameter balusters in the market today. Contractor pail contains 500 connectors and 1-1/2" #2 square drive stainless steel screws. Eliminates packaging hassles for the professional deck builder and enables them to do two - three average decks per pail. Screws bagged separately for convenience.

Item # ADIPROPACK500BP



Item # ADIPROPACK500 - Same as round baluster connector above, but with attached washer. For use with balusters when ends are not powder coated.



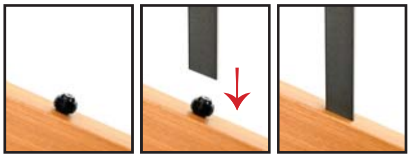
Available in:
Black

U-Ball Connector

Sold in packs of 50.

Universal connector for 3/4" square or round balusters. Features a round hidden connector that allows for a secure connection at varying angles. Excellent for odd angle applications. Requires baluster to be cut if at an angle on both ends. Includes 1-1/2" stainless steel screws.

Item #: UBALL



Universal Baluster Spacing Template - 48"

Sold in any quantity.

Spaces balusters at 4-1/2" **on center** to meet railing code. Allows for even spacing of DekPro™ round, square and architectural baluster connectors. Round and square connectors fit into template, for architectural connectors use small hole to locate. Shift template progressively down the lineal for longer length railings.

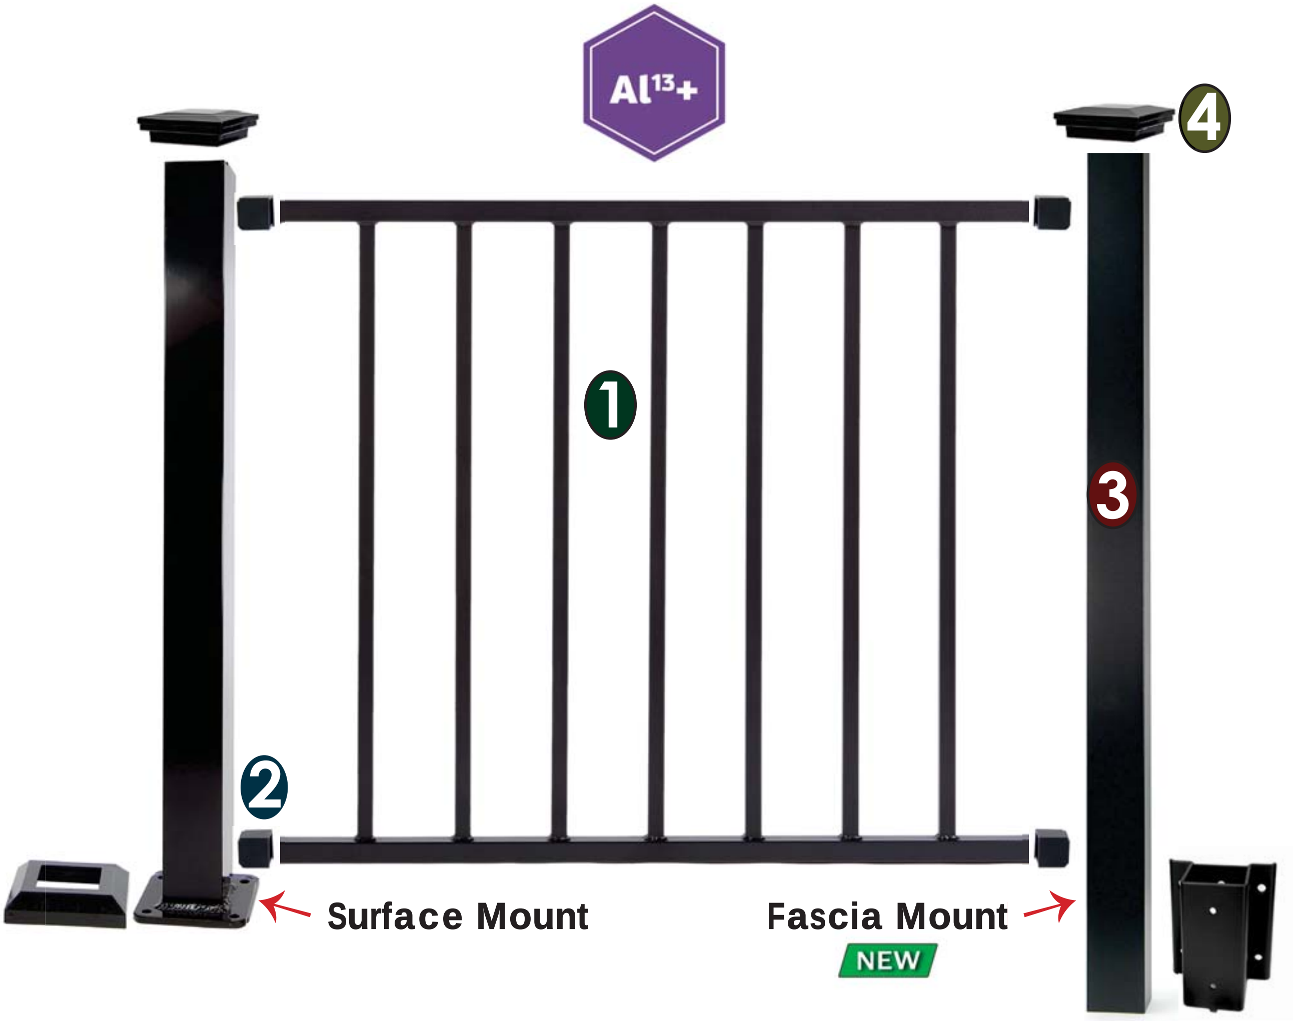
Fortress® AL^{13+} Railing Overview



Use the steps below for the following pages to complete your rail

STEP 1 **Choose Panel**
Glass Options Available
See Pages 212 - 219

STEP 3 **Choose post**
Surface or Fascia Mount

STEP 2 **Choose Brackets** (4 Pack)

STEP 4 **Select a Post Cap**

Fortress® Aluminum Railing System

Fortress AL13+ railing system features fully pre-welded aluminum rails, distinctly different from aluminum kits. Panels install easily with a simple bracket system. Aluminum construction and a premium powder coating create a virtually maintenance free system designed for use in a variety of environments. Rail panels can be used as a complete system or they can be installed between existing posts.

Fortress® Railing ONLY available in: MN, WI, IA, ND, SD, NE, KS and MO

Fairway™ A310 Railing Overview

FAIRWAY
ARCHITECTURAL RAILING SOLUTIONS

Available in NEW Black Textured Finish

Surface Mount

A310 "OTP" Over-the-Post application method provides a clean, uninterrupted run of the top rail using a variety of OTP top rail brackets that insert into the top of the posts. 2" sleeves with surface mount support posts are used to achieve this design. Qualifies as graspable handrail for stairs.

Fascia Mount

A310 "OTP" Over-the-Post Side/Fascia Mount application method installs on the outside band of your structure making use of every inch of your outdoor space. 2" sleeves with fascia mount support posts are used to achieve this design.

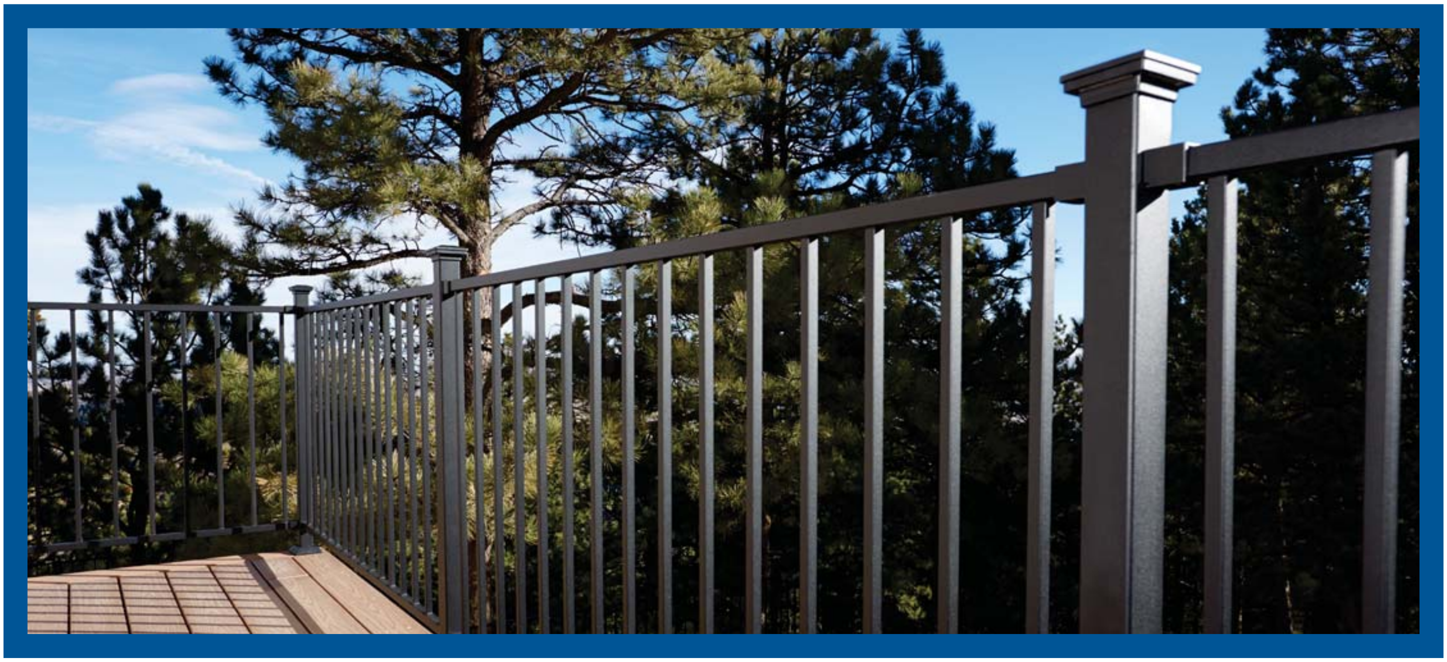
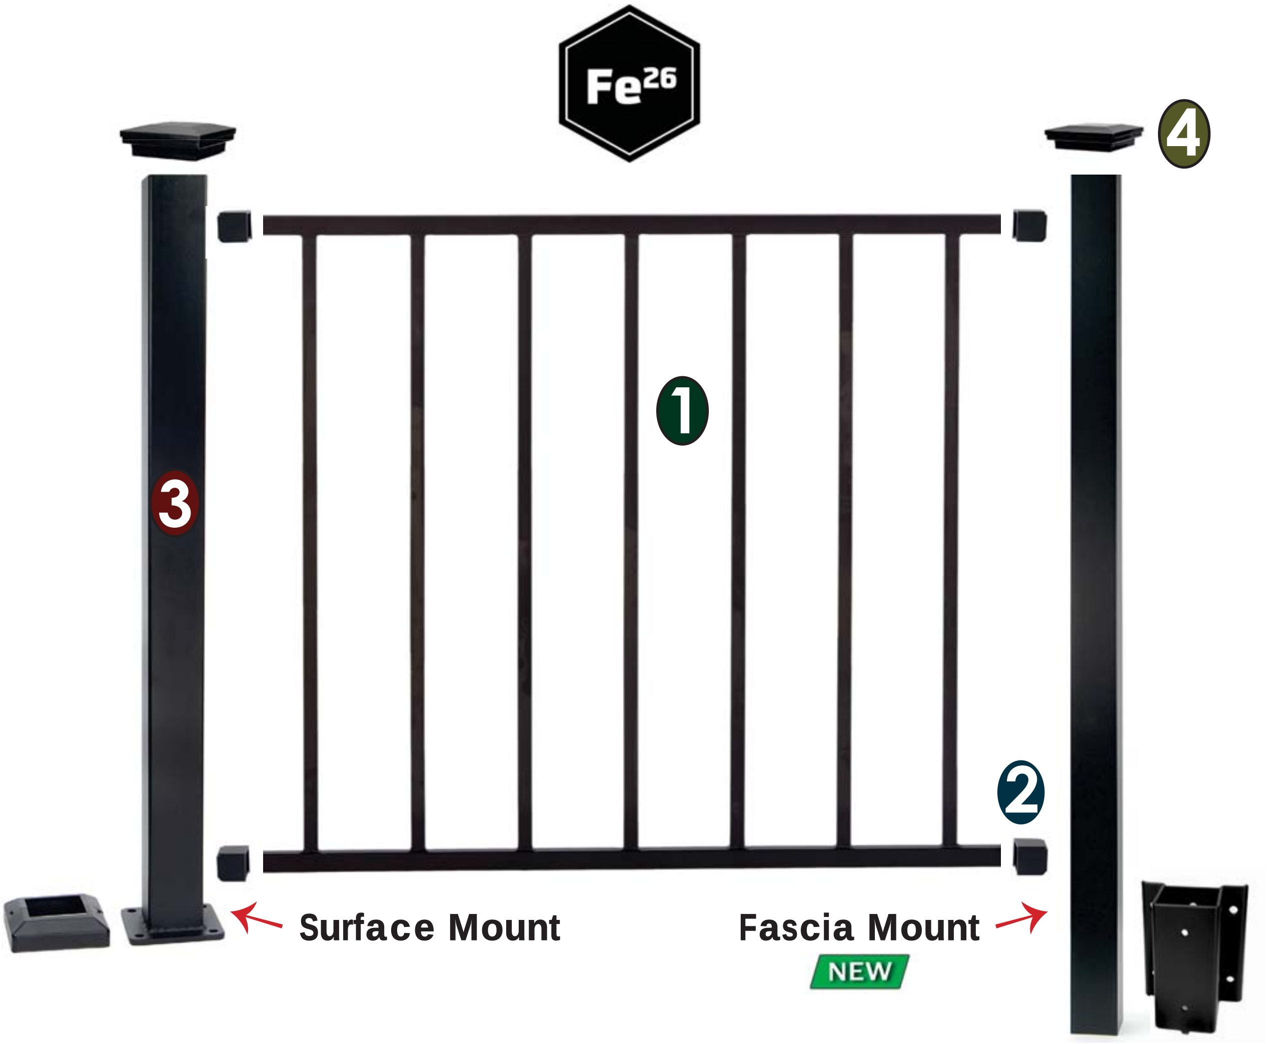
IRON RAILING SYSTEM



Fortress® Fe26
Iron Panel Railing System pg 86 - 96

Fortress® Fe^{26} Iron Railing Overview



Use the steps below for the following pages to complete your rail

- **STEP 1 Choose Panel** Vertical or Horizontal Infill
- **STEP 2 Choose Brackets** (4 Pack)
- **STEP 3 Choose post** Surface or Fascia Mount
- **STEP 4 Select a Post Cap**

Fortress® Iron Railing System

Fortress FE26 railing system features fully pre-welded iron rails that provide a clean, classic appearance. Panels install easily with a simple bracket system. Pre-galvanized steel, zinc phosphate, e-coat and premium powder coating make it the most economical and durable iron railing system on the market. Rail panels can be used as a complete system or they can be installed between existing posts.

Fortress® Railing ONLY available in:
MN, WI, IA, ND, SD, NE, KS and MO

ADI™

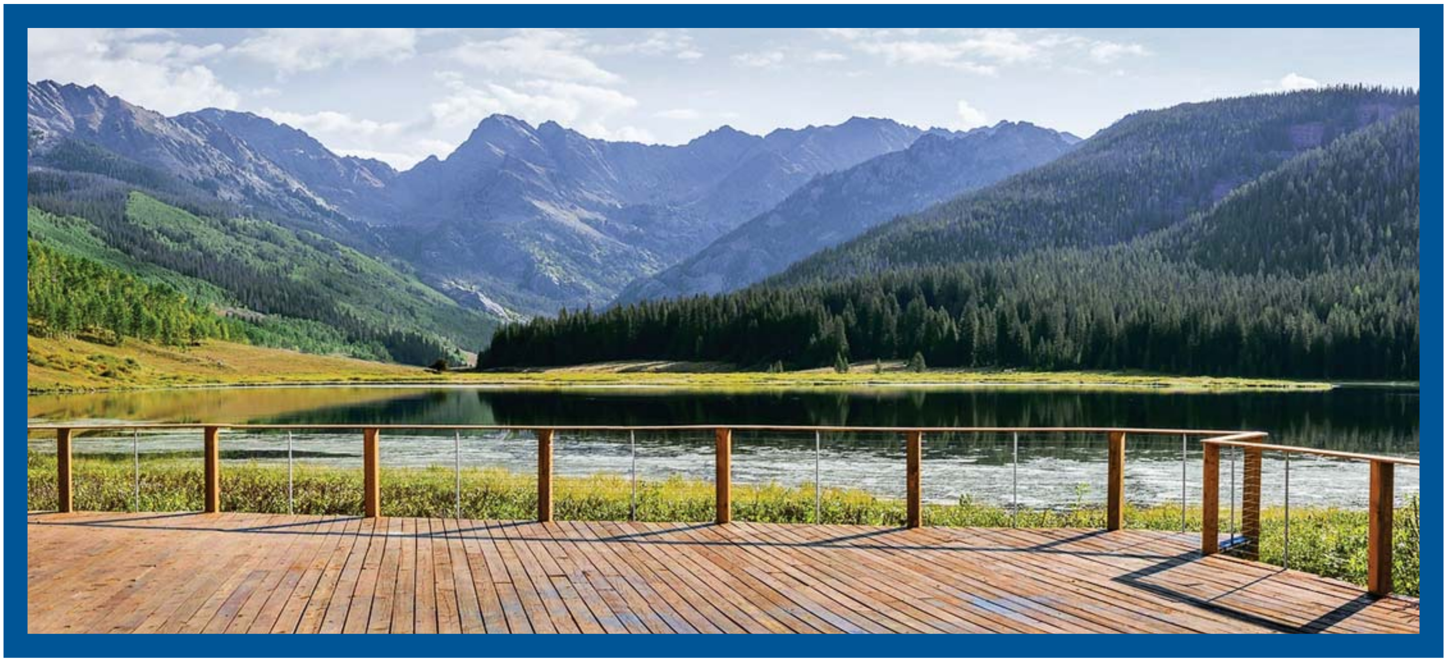
CABLE RAILING FOR WOOD



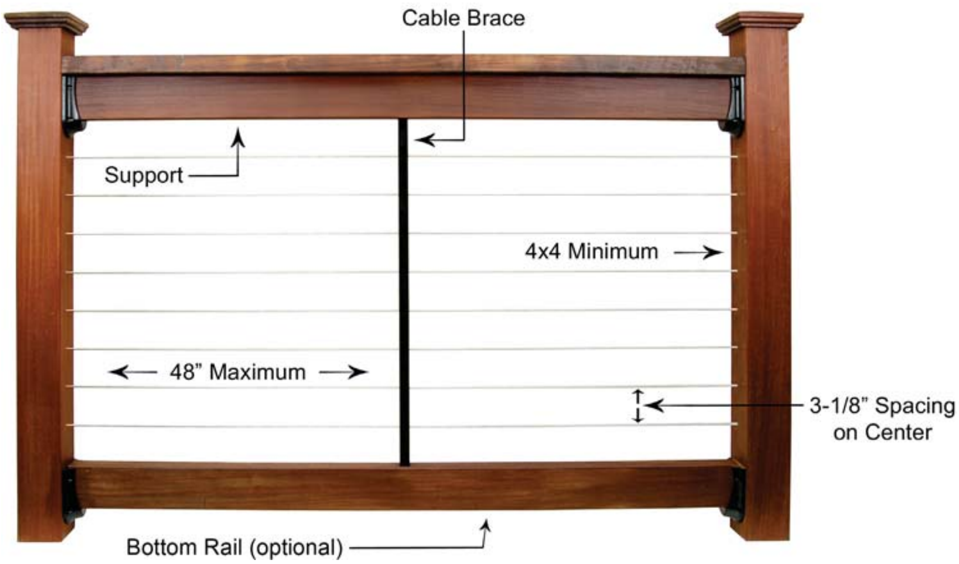
DekPro InvisiCable™ pg 128 - 129
Cable Rail for Wood

ADI™ Cable Railing System by RailFX® pg 130 - 142

DekPro InvisiCable™

GREAT VALUE!

Cable Railing for Wood Systems



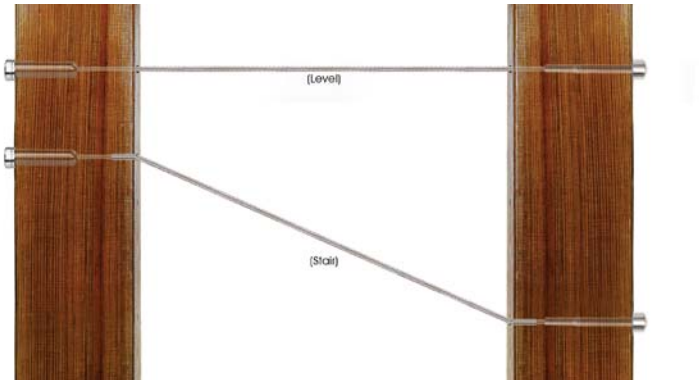
A simple, affordable cable railing option for the value conscious consumer that wants the look of cable but at a lower cost. Proudly made in the USA of 316 marine-grade stainless steel components and cable.

Kit includes 1 run of cable with 2.75" broached threaded tensioner, Pull-Lock fitting, two end caps, washers and brass Nylock hex nut. Kits are field trimmable to the proper length and come in 5' increments to 30' then 40' and 50'.

Don't confuse this kit with a competitors – we include **BOTH** end caps in each kit!

Perfect for interior and exterior use – decks, docks, balconies and stairways utilizing wood or solid composite posts. Fittings are concealed in the post creating a clean, almost invisible infill. Holes are drilled straight through the post and no angled holes or beveled washers are required.

Backed by ADI™ and DekPro™ Manufacturing with a 10 Year Warranty



For level runs:

- Threaded Tensioner to Pull-Lock®.

For stairs, pitched runs:

- Threaded Tensioner to Pull-Lock® with 3/4" Post Protector Sleeve

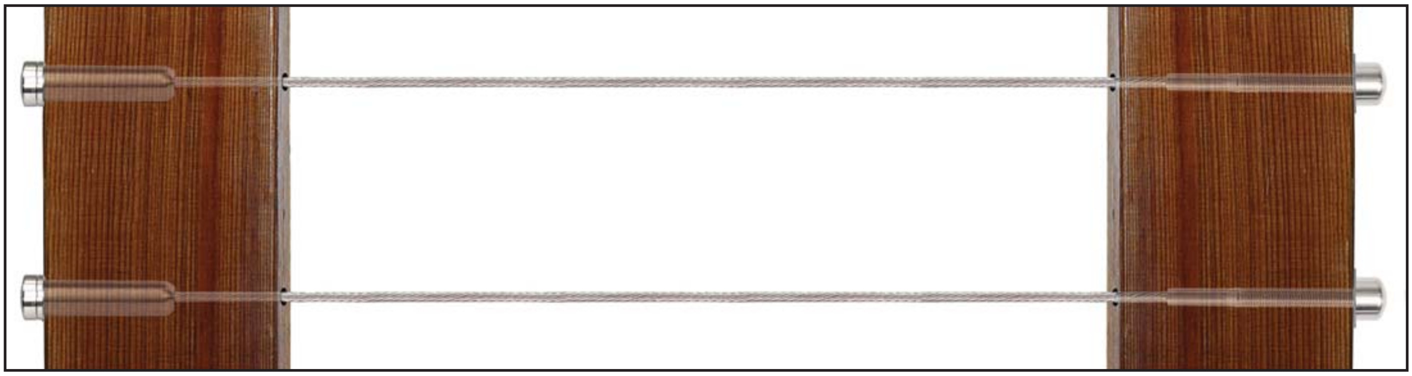
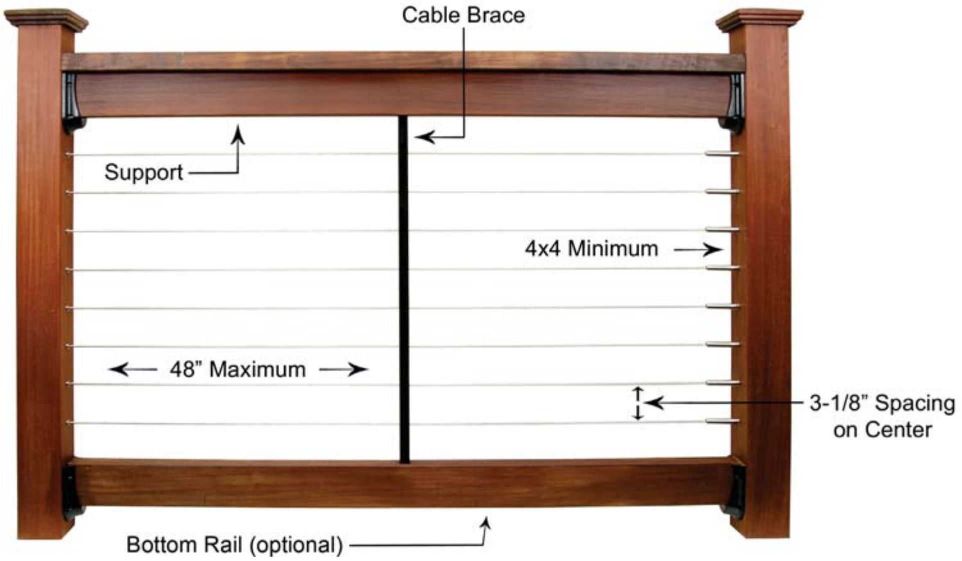
PULL-LOCK™ LAG



Framework for Cable Railing



Cable Brace
Support
4x4 Minimum
48” Maximum
3-1/8” Spacing on Center
Bottom Rail (optional)

Guidelines for proper installation of the ADI™ cable railing system by RailFX®

- Use minimum 4x4 wood posts.
- Top rail is **required** to support posts. (Bottom rail is optional)
- Cables to be spaced at 3-1/8” on center.
- Cable must be supported every 48” to keep the cable from deflecting over 4” to pass code.
- Cables are to be tensioned to **225** lbs of tension minimum.
- 36” Rail height typically uses 10 runs of cable, 42” rail height typically uses 12 runs of cable.
- Lag style cable fittings are required for cable being used with sleeved posts.
- If two posts are used on a corner of the deck, the cable can run through the corner by making a 45 degree turn through the posts with the use of post protector tubes.

FlexFX Cables w/ Painted Wood Rail

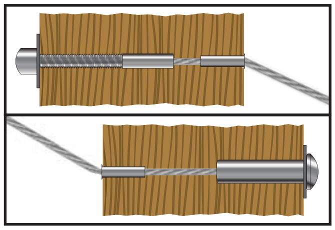
Cable Railing Tools

Post Protector Tubes

Sold in packs of 10.

Stainless Steel protector tubes are inserted into wood post where cable enters/exits at an angle to prevent cable from biting into the wood. 1/4” diameter with 3/8” tapered end.

Item #: ICTUBE/10 - 3/4” Length - 10 pack
Item #: CSTUBE6 - 1-1/2” Length - Individual



Cable Cutters

Sold in any quantity.

Cable cutter designed for clean, burr free cutting of 1/8”stainless steel cable. Required for use with FlexFX™ lag style fittings.

Item #: RFXC7HIT - for 1/8” Cable
Item #: RFXC9 - for 3/16” Cable

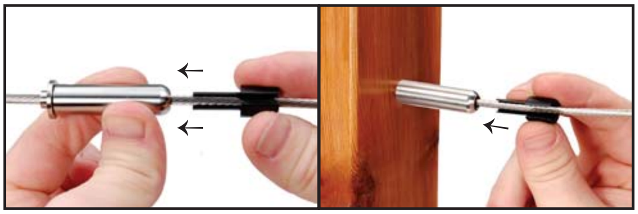
C9

Push Lock Release Key (1/8” Cable Only)

Sold in any quantity.

Release key allows the release of an untensioned cable from Pull-Lock™ and FlexFX™ fittings. Also used to release fittings to aid installation.

Item #: RFXPLKEY/R



Cable Gripping Pliers

Sold in any quantity.

Used to securely grip cable to avoid winding during installation which eliminates the most common issue of cables losing tension. Cable gripping pliers are recommended for professional installers.

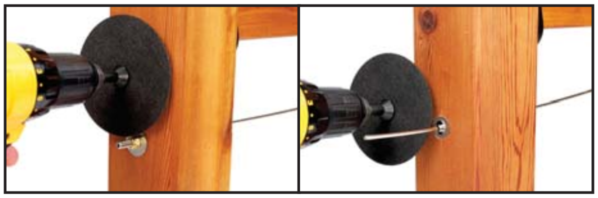
Item #: RFXPLIERS

Cable Cut Off Kit

Sold in any quantity.

Used to cut cable flush to the end of Pull-Lock™ fittings and excess threads from stud type tensioners. Includes mandrel and 2 cut off wheels.

Item #: RFXCUTOFFKIT/R

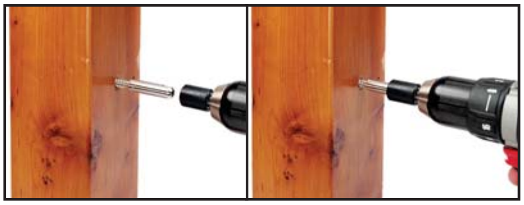


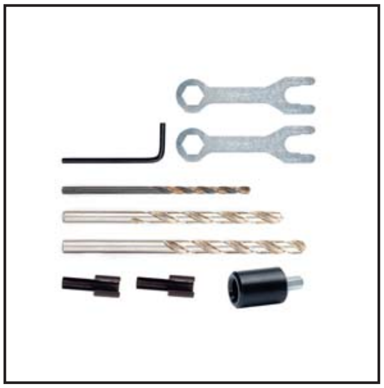
Push-Lock Lag Driver

Sold in any quantity.

Huge time saving tool makes installing the FlexFX™ non-tensioning lag fitting quick and easy. Used with WLN series FleXFX cable fittings.

Item #: RFXDRIVER/R





FlexFX™ Cable Railing Install Kit

Sold as a Kit.

Installation tools for FlexFX™ Swageless lag style cable railing. Kit includes 7/32", 1/4" and 5/32" diameter drill bits, 2 push lock release keys, cable gripping tool, Push-Lock lag driver, 5/32" allen wrench, and 2 - 3" combo wrenches.

Item #: RFXINSKIT

Cable Lacing Needle (1/8" Cable Only)

Sold in any quantity.

Used to pass 1/8" cable through posts without snagging / fraying during installation. Fits 3/16" diameter hole or larger.

Item # RFXNEEDLE - Cable Lacing Needle

QuickGrip Cable Tool

Sold in Packs of 2.

Used to grip cable to avoid winding during installation which eliminates the most common issue of cables losing tension.
Tool is recommended for single installations.

Item #: RFXGRIPPER

EZ-Clean Metal Cleaner / Protectant

Sold in any quantity.

Cleaner / Protector dissolves minor corrosion and leaves a protective coating that lasts for months. Includes 8 oz. rust and stain remover and 4 oz. bottle of protectant.

Item #: RFXEZCLEAN

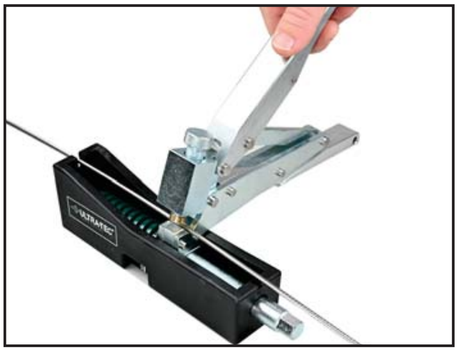
Cable Pre-Tensioner Tool

Sold in any quantity.

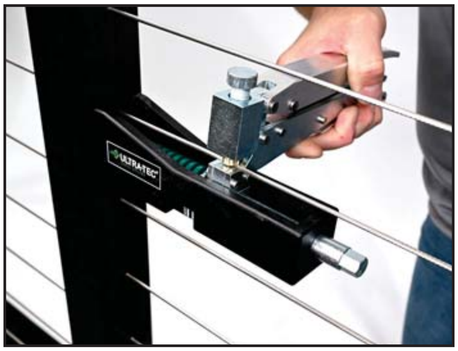
Cable pre-tensioner tool is typically needed when using long runs of cable with multiple turns. This tool pulls the cables to tension to easily allow the installer to feed the cable into the non-tensioning cable fitting. Hand ratchet is used to rotate threaded rod to pull tension on the cable. Do not use power tools.

Item # FXPRETENSIONER01

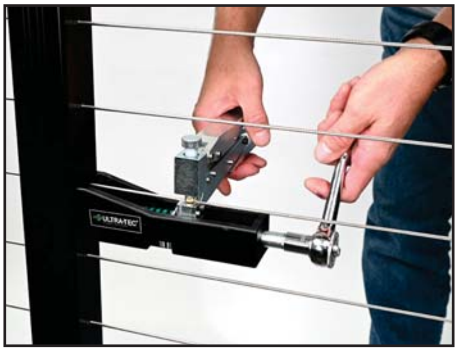
Made in USA



Cable lays into tool



Tool sets against the post

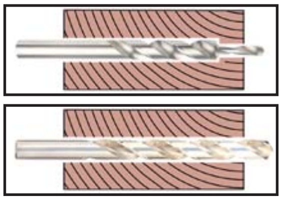


Rotate using ratchet to pull tension

Cable Railing Drill Bits

Sold in any quantity.

For wood, to make 29/64" hole for Invisiware receiver / Pull-Lock fittings. Step drill bit creates a 3/16" hole for the cable using a single drill bit.



Item #: CSD316 - ADI Step Drill Bit (29/64" to 3/16")

Item #: 29/64DRILL - 29/64" Drill Bit

Cable Tension Gauge

Sold in any quantity.

Used to determine proper tension of cables.

Item # RFXPTCR - Tension Gauge

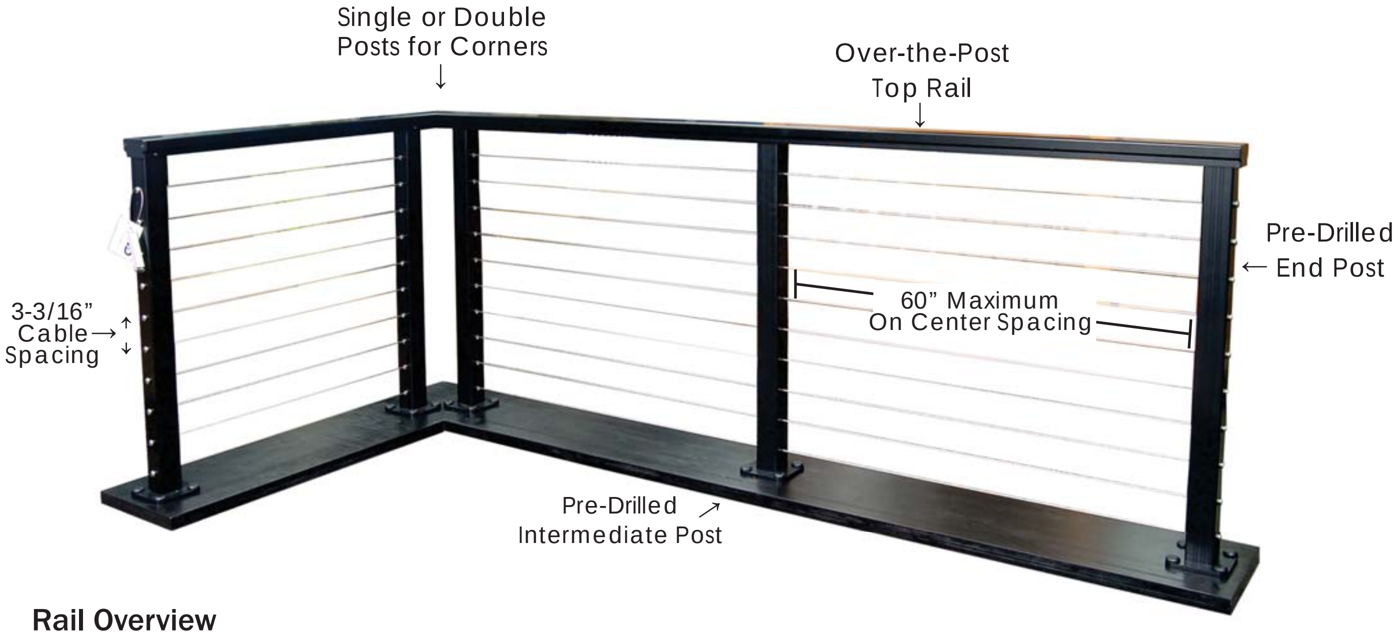
RailFX® Aluminum Rail with Cable



Rail Overview

Manufactured in the USA using aircraft grade aluminum, RailFX® Aluminum Rail and Cable System has been designed, engineered and tested specifically for use with cable and is approved in all 50 states. The aluminum framework and stainless steel cable allows for railings to be lightweight, while still retaining exceptional durability. Railings will not rust, rot, warp, or split and require minimal user maintenance.

Rail Guidelines

To comply with engineering and testing **posts must be spaced no more than 60″ on center**. Cables are spaced at 3-3/16″ on center to keep the cable from deflecting beyond 4″ to meet code. Single or double posts can be used to create a 90 degree corner for surface mount or fascia mount w/ bracket applications. Two corner posts are required for Direct Mount fascia applications. Cable can either terminate at the corner or run continuously through a single corner. Top rail is required for all installations.

Posts - Surface or Fascia Mount

RailFX® posts for level and stair railings are all predrilled and ready for cable installation. Stairs posts do not come with base plates attached so posts can be placed and mounted where desired for maximizing installation flexibilty. All posts are available for surface mount or fascia mount and available for 36″ and/or 42″ rail heights.

Top Rails

There are 3 styles of top rail that RailFX® railing utilizes:

Series 200 is a contemporary flat top rail most often used for level applications. Can be used for stairs with the addition of a secondary handrail system.

Series 250 is a square profile that qualifies as a graspable rail and is most commonly used for stairs.

Series 400 is a flat top rail that is designed to accept a wood or composite cap rail.

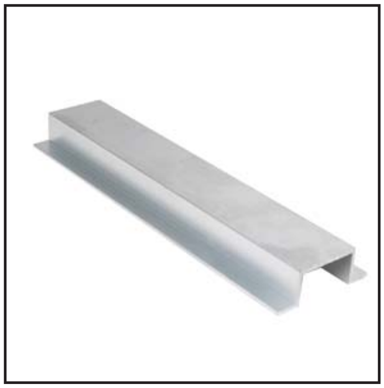
RailFX® Series 200 Rail Splices



Available in:
Aluminum

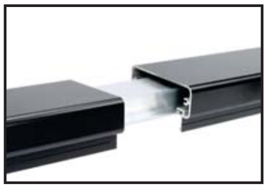
Made in USA

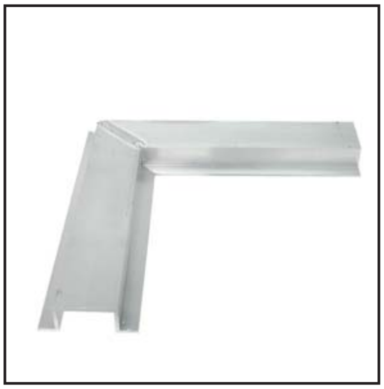
Straight Splice - 200 Series

Sold in any quantity.

9” long splice joins straight sections of series 200 top rail to make any length run. Splices and be used between posts. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included)

Item #: FXSPL200 - Straight Splice





Available in:
Aluminum

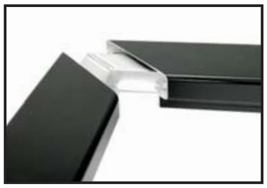
Made in USA

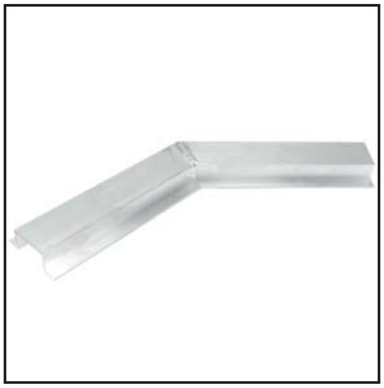
90 Degree Splice - 200 Series

Sold in any quantity.

Splices top rails to make a 90 degree angle for series 200 top rail. Requires miter cutting of top rail. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included)

Item #: FXSPL20090 - 90 Degree Splice





Available in:
Aluminum

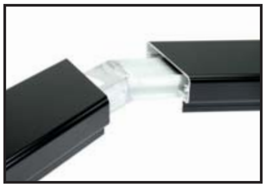
Made in USA

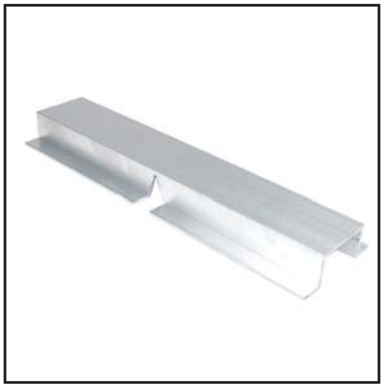
135 Degree Splice - 200 Series

Sold in any quantity.

Splices top rails to make a 135 degree angle for series 200 top rail. Requires miter cutting of top rail. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included)

Item #: FXSPL200135 - 135 Degree Splice





Available in:
Aluminum

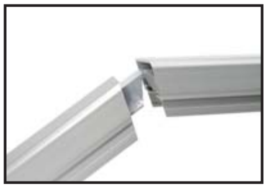
Made in USA

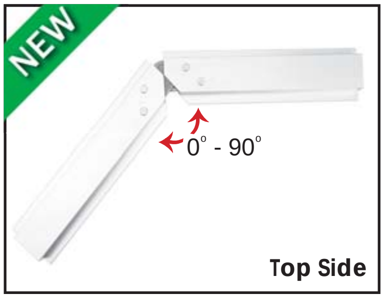
Notched Splice for Stairs - 200 Series

Sold in any quantity.

For continuos level to stair transition. Bends to accommodate any angle from 0° - 38°. Requires miter cutting of top rail. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included)

Item #: FXSPLST - Notched Splice





Bottom Side

Available in:
Aluminum

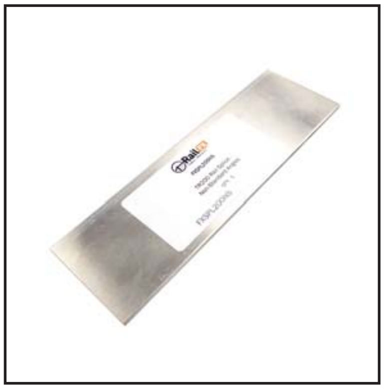
Universal Splice - 200 Series

Sold in any quantity.

Universal Splice for 200 Series top rail works for Level Straight, 45 degree and 90 degree angles. It can also be used for any angle in-between. Holds top rails securely together at joint/miter locations. Splices can be used between posts or directly on top of posts. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included).

Item #: FXSPL200UNIVERSAL - Universal Splice 200

Bottom Side



Available in:
Aluminum

Non-Standard Splice - 200 Series

Sold in any quantity.

Universal Splice for 200 Series top rail used for non-standard angles. Flat aluminum stock can be cut and manipulated to work with unique angles. Holds top rails securely together at joint/miter locations. Splice can be used between posts or directly on top of posts. Installs using 8 - #10 x 3/4” self-drilling screws (Not Included).

Item #: FXSPL200NS - Non-Standard Splice

Pre-Drilled Post for Stair Applications

Sold in any quantity.

2-3/8” Square Pre-drilled stair post for cable system. Due to many variables in stairs, these posts do not come with base plate attached. This allows post to be placed, adjusted and mounted where desired. Stair post holes are slotted and drilled at 3-3/16” on center and offset to allow cables to pass through at the angle of the stair. 46” length allows post to be cut to appropriate height.

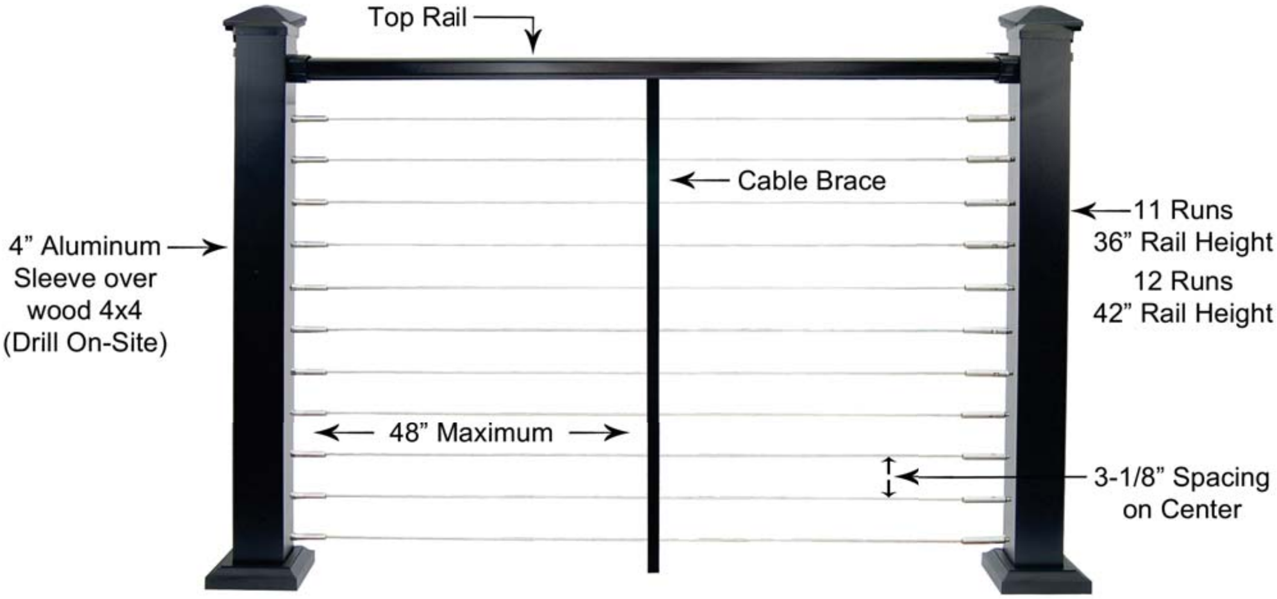
Sleeved Posts w/ Cable Overview

Framework For Aluminum Sleeved Wood Posts



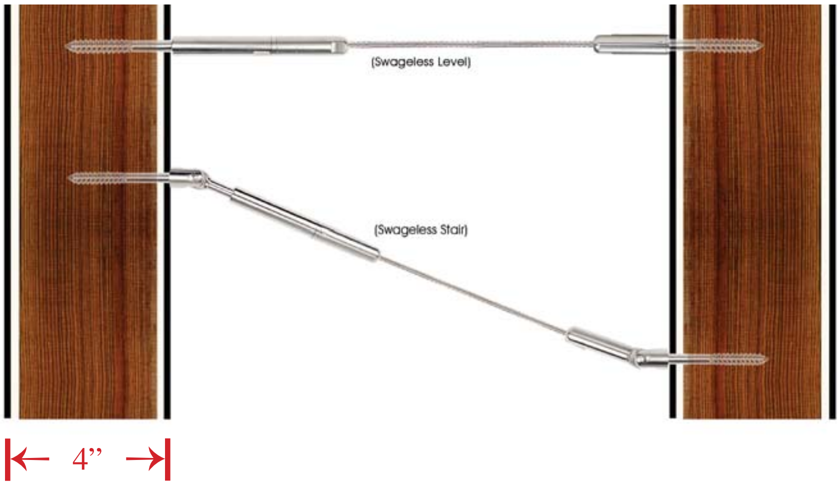
Top Rail
Cable Brace
11 Runs
36” Rail Height
12 Runs
42” Rail Height
4” Aluminum Sleeve over wood 4x4 (Drill On-Site)
48” Maximum
3-1/8” Spacing on Center

Guidelines for proper installation of the ADI™ cable railing system by RailFX®:

- Use 4” aluminum sleeve with a 4x4 wood post for structural support.
- Top rail is required to support posts. (Bottom rail is optional)
- Cables are to be spaced at 3-1/8” on center.
- Cable must be supported every 48” to keep the cable from deflecting over 4” to pass code.
- Cables are to be tensioned to 225 lbs of tension minimum.
- 36” Rail height typically uses 11 runs of cable, 42” rail height typically uses 12 runs of cable.
- Lag style cable fittings are required for cable used with sleeved posts.
- Cable kits must terminate at corner posts, or posts where the cable is at an angle.

For level runs using wood posts with aluminum sleeves.
(Outside diameter 4” or less)
RFXWLT - Tensioner Fitting
RFXWLN - Non-Tensioner Fitting
and Bulk Cable (100’ or 500’)

For stairs using wood posts with aluminum sleeves:
(Outside diameter 4” or less)
RFXWST - Stair Tensioner Fitting
RFXWSN - Stair Non-Tensioner Fitting
and Bulk Cable (100’ or 500’)



(Swageless Level)
(Swageless Stair)
4”

*** If using sleeves over 4” in diameter - Use cable kits for composite sleeves. Reference pages 134 - 135**

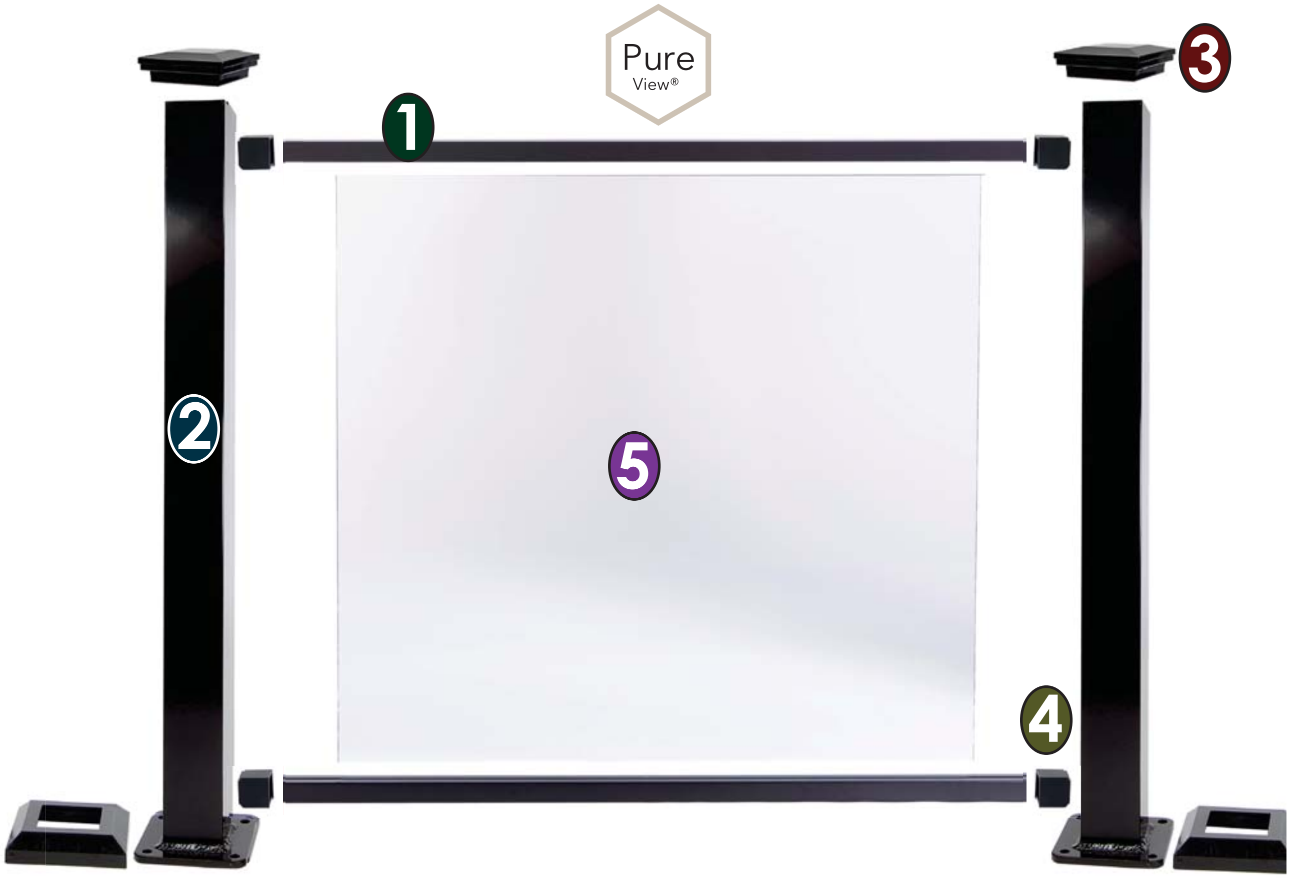
GLASS RAILING SYSTEMS

Fortress® Al13+
Glass Panel
Aluminum Railing System pg 212 - 219

RailFX®
Glass Panel
Aluminum Railing System pg 220 - 226

Fortress® Glass Panel Rail Overview



Use the steps below for the following pages to complete your rail

STEP 1 Choose 6' lineal kit (Pair)

STEP 2 Choose post (Includes Skirt)

STEP 3 Select a Post Cap

STEP 4 Choose Brackets (4 Pack)

STEP 5a Choose Glass Panel Size
10 Standard Sizes Available

or

STEP 5b Order Custom Glass
If standard glass sizes do not fit your layout

IMPORTANT:

Please note: Caution must be exercised since off the shelf glass panel systems have size limitations and are not flexible to field adjustments such as ADI's other rail systems.

Additionally and most importantly is that the contractor / installer understands the parameters of the Pure View® Glass Rail system. Ultimately it is the contractor that will have to provide the list of railing materials required for the project since field measurements are required as well as an understanding of post placement / spacing to correlate to the glass panel sizes.

Fortress® Glass Panel Rail Overview

Pure View® Glass Panel System Design & Ordering Guidelines

- There are 10 widths of tempered glass panels available. This is a limiting factor for each project. (If custom glass is required then only rails, posts and brackets will be required.)

- Glass Panel widths start at 12.25” and increment up in 5” - 6” increments. 12.25, 18.25, 24.25, 31.25”, 36.25”, 41.25”, 46.25”, 51.25”, 56.25”, and 61.25”. Glass thickness is ¼” nominal (6 mm). **SEE CHART BELOW**

Glass: 6mm Thick, Clear Tempered, Two Heights: 33” and 39”

Glass Size	Item #	O.C. Post Spacing (3" Post)	Between Post Spacing (Face to Face)
33" x 12.25" 39" x 12.25"	55533129 55539129	18" to 23"	15" to 20"
33" x 18.25" 39" x 18.25"	55533189 55539189	24" to 29"	21" to 26"
33" x 24.25" 39" x 24.25"	55533249 55539249	30" to 35"	27" to 32"
33" x 31.25" 39" x 31.25"	55533319 55539319	37" to 42"	34" to 39"
33" x 36.25" 39" x 36.25"	55533369 55539369	42" to 47"	39" to 44"
33" x 41.25" 39" x 41.25"	55533419 55539419	47" to 52"	44" to 49"
33" x 46.25" 39" x 46.25"	55533469 55539469	52" to 57"	49" to 54"
33" x 51.25" 39" x 51.25"	55533519 55539519	57" to 62"	54" to 59"
33" x 56.25" 39" x 56.25"	55533569 55539569	62" to 67"	59" to 64"
33" x 61.25" 39" x 61.25"	55533619 55539619	67" to 72"	64" to 69"

- Minimum opening size for glass panel is 15” and maximum opening is 69” between posts (Factors in 1.5” brackets attached to posts) Posts are 3” AL13+ (aluminum).
- Brackets protrude into railing opening approx. 1.5” on each side from post thus limiting how close a panel can be placed to a post.
- Posts, rails and all brackets are AL13+ – Aluminum. Available from ADI™ in, White and Black Sand (NS).
- Glass Panel system is designed for **level applications only** – Stairs would typically use 4” Glass Pure View Baluster system. (Option: Fortress rack-able stair panels with pickets.)
- Some layouts may **NOT** be appropriate for this glass system.
- Due to the delicate nature of glass there will be skid, packaging and freight assessed to each order.

Quotes will be handled by a two step process:

1.) Qualifying the prospect through a budgetary estimate using a lineal foot cost.

2.) If job is accepted, a formal quote will be provided based off actual deck dimensions and quantities provided by contractor.

RailFX® Glass Railing Overview

Aluminum Rail with Glass System

RailFX® Aluminum Rail with Glass Panels - Black

Rail Overview

Manufactured in the USA using high grade aluminum, RailFX® Aluminum Rail for Glass Panels has been designed, engineered and tested specifically for use with glass panels. Glass panel infill creates minimal obstructions and allows for exceptional views through your railing. The aluminum framework will not rust, rot, warp, or split and requires minimal user maintenance.

Rail Guidelines

To comply with engineering and testing **posts must be spaced no more than 60″ on center**.
1/4″ glass panels to be used. 29″ glass for 36″ rail height and 35″ glass for 42″ rail height.
Glass not included. Must be sourced locally to fit railing layout.

Posts

Posts are 2-3/8″ x 52″ to accommodate 36″ and/or 42″ rail heights and must be cut to size on site. Posts do not come with base plates attached. Base plate must be attached on site.

Top Rail

Series 200 is a contemporary flat top rail most often used for level applications. Can be used for stairs with the addition of a secondary handrail system.

DekPro™ EFFEX Transformer Kit

Sold in any quantity.

Kit includes 1 Outdoor DC output transformer w/ Quick Connect lead, 1 timer / photo cell, 1 dimmer with remote control, 1 - Y-splitter and 1 - 9' Quick Connect wire. Dimmer draws **2.5 watts**. Determine correct transformer size by adding up wattage of all fixtures. Total wattage should not exceed 80% of the capacity of the transformer. (100 watt transformer has two outputs).

Item # DP36WTRANSKIT - 36 watt transformer kit
Item # DP60WTRANSKIT - 60 watt transformer kit
Item # DP100WTRANSKIT - 100 watt transformer kit

DekPro Quick Connect System

DekPro™ EFFEX Transformer

Sold in any quantity.

Outdoor DC output transformer provides power to LED lights. Comes with a Quick Connect output wire. Determine correct transformer size by adding up wattage of all fixtures. Total wattage should not exceed 80% of the capacity of the transformer. Measures 6-1/2"L x 2"W x 1-1/2"H.

Item # DP36WTRANS - 36 watt
Item # DP60WTRANS - 60 watt
Item # DP100WTRANS - 100 watt (2 outputs)

DekPro Quick Connect System

100W

DekPro™ EFFEX Dimmer

Sold in any quantity.

12 volt waterproof remote dimmer, controls on/off and dimming functions for EFFEX series lights and transformers. Requires separate transformer. Works with most DC transformers up to 60 watts. Draws **2.5 watts**. Remote range - Approx: 70 ft.

Item #: DPDIMMERWP

DekPro™ EFFEX Timer with Photo Eye

Sold in any quantity.

110 volt photoelectric timer with built in photo eye. Set to on/off at dusk and dawn automatically or on at dusk with 2 - 10 hour run times. Designed for use with any transformer and has two outputs. Plug into outlet and plug transformer into this unit.

Item #: DPTIMER

DekPro™ EFFEX 9' Quick Connect Cable

Sold in any quantity.

9' Cables come with water tight Quick Connect fittings on each end. Cables connect into DekPro™ EFFEX lighting components. Used when running wiring through top rail of aluminum railing system (i.e. DekPro™ Prestige)

Item # DP9CABLEMF

DekPro Quick Connect System

DekPro™ EFFEX Y-Splitter

Sold in any quantity.

Y-splitter allows for branching off of circuit where needed and looping wires back into the transformer for larger projects.

Item # DPYSPLITTER

DekPro Quick Connect System

DekPro™ EFFEX In-Line Connector Cable

Sold in any quantity.

Used optionally, this 6' cable enables post caps to be wired by tapping into **12 Gauge EFFEX** perimeter wire below the deck and transferring the power up the post and to the lighting fixture. Provides a watertight connection.

Item # DPPIGTAIL72 (Must use with EFFEX 12-2 wire)

Item #: LVW122100 - 100' - 12 gauge outdoor rated wire
Item #: LVW122250 - 250' - 12 gauge outdoor rated wire

DekPro Quick Connect System

DekPro™ EFFEX Transformer Lead - Replacement

Sold in any quantity.

This replacement lead connects to the transformer or dimmer to begin wiring for the DekPro EFFEX system.

Item # DPTRANSLEAD

DekPro Quick Connect System

Heavy Duty Outdoor Low Voltage Wire

Sold in any quantity.

Heavy duty low voltage wire rated for direct burial. Please note, 18-2 gauge is recommended for most LED lighting applications**.** 12-2 gauge required for longer runs (Over 200') of wiring.

Item #: LVW182100 - 100' length 18 gauge
Item #: LVW182250 - 250' length 18 gauge
